Dear Sir

REF: Waste Licence Reference number 209/01 – application by Shannon Vermi Composting Ltd for facility at Coolross, Rathcavan, Co Tipperary. Waste Licence application 6th August, 2004

We are concerned that major development has proceeded on this site in advance of a waste licence application.

We are concerned that the development, which is already being carried out on the site, raises serious concerns with regard to suitability of site selection and operating conditions.

The proposal also raises concern because of the proximity in which workers' accommodation in order to serve the proposed development with associated waste and effluent generation has been provided without any planning permission or without being addressed in the waste licence application.

Yours sincerely
