Re: INDAVER IRELAND INCINERATOR PLANNING PROPOSAL  
Reg:167-1

Dear Sir\ Madam

With regard to the application made by indaver for an IPC Licence I wish to object to the granting of a Licence for the following reasons.

I feel that there is a lack of information about the proposed incinerator especially for the general public. I was recently informed that a number of incinerators in germany closed because they did not follow fully with saftey regulations. These incinerators were run by indaver, I find this very worrying as I live less then a mile from the proposed site.

Also we are living in an age were there is an increase of Asthma and Health related problems, this chimmney factory will just be another problem the people of this area, and the country, will have to contend with. I feel it will be a factor in the deterioration in our health this is how i feel unless i can be informed otherwise.

I would much obliged if you could acknowledge this letter when considering granting the licence

Yours sincerely,

*Peter Goodman*
