Re: Idaver Ireland Incinerator Planning Proposal

Planning Application File Number: 01/4014
Registration Number: 167-1
Location of Development:
Carranstown,
Duleek
Co. Meath

Dear Sir or Madam:

I wish to make an objection to the application of the above planning proposal made by Idaver for an IPC Licence for the following reasons:

- ✓ The proposed incinerator would pose a substantial risk to the water supply, local rivers and the seacoast as a result of emissions and site run-off.
- ✓ Dioxins are emitted from the cement factory next to the proposed site, thus an incinerator would increase the overall amount of Dioxins in the area.
- ✓ The proposed site is located in an agricultural area and would emissions from both the incinerator and additional traffic pose a risk to livestock and farming.
- ✓ The proposed site is unacceptably close to schools, residences and Newgrange.

Should you have any questions or require any further information please contact me at the above address or by telephone on 041 988 0949.

I would appreciate a written acknowledgement of this letter and confirmation that my objection is valid.

Kind regards,

Chris Perkins
