Re: INDAVER IRELAND WASTE APPLICATION Reg No. 167-1

Location of Development: Carranstown, Duleek, Co. Meath.

With reference to the above, I wish to object to the application made by Indaver for a waste license for the following reasons:

1. We do not have the facilities here in Ireland to analyse samples taken to measure dioxin emissions. Samples will have to be sent abroad - surely that is a very dangerous practice.
2. After the process of incineration - we are still left with highly toxic waste - which in my mind defeats the purpose of incineration.
3. The location of the development is too close to schools - urban areas & The Borne Valley.

I would appreciate a written acknowledgement of this letter, and confirmation that my objection is a valid one.

Signed Inda Eady
