Subject: FW: Duleek incinerator

Tracey,

Can you treat this as a submission and forward it to Ken Macken In Dublin for a non-standard response to this submission.

Regards
Eve

Subject: Duleek incinerator

Hello,

I was wondering if the EPA has a timeline for the decision on the Indaver license for an incinerator at Carrinstown, Duleek CO Meath.

I would also like to know if the EPA will be taking local residents' concerns into account while deliberation on this license. If this is so where should we send our letters of objection or support.

Kind regards,
Chris Perkins

The application for a licence under the waste Management Act for the incinerator at Carrenstown is currently being examined. As is the norm with all licence applications, this examination will be concluded as soon as the Agency is satisfied that all relevant information has been obtained. It is likely that this will take a number of weeks (at least four) more, though it is not possible to be more precise at this time. Submissions on the application may be made to the Agency's headquarters in Wexford and these will be considered in making any decision. The reference number is 167-1.
