Co. Wexford.

**Re: Application for Waste License - Indaver Ireland**  
**Proposed waste management facility at Carranstown, Duleek**  
**Reg No. 167 - 1**

Dear Madam,

I acknowledge receipt of your letter of the 12<sup>th</sup> January 2003 in respect of the above application and note that the agency proposes to impose a number of conditions relating to emissions and including the following condition -

"The stack height of the waste to energy plant (emission point reference no. A1-1) shall at minimum be 90.3m OD (i.e. increased from 40m as specified in the application to 65m)".

The Planning Authority, while noting that planning permission is not required for the increase in height of the stack having regard to the provisions of Article 7(1) of the Planning and Development Regulations 2001, would like to obtain further details and including justification for the height alterations. The proposed increase in stack height may have an additional visual impact, a matter the Planning Authority would like a future opportunity to assess and consider prior to definitively commenting on same.

Yours faithfully,

L. Whelan  
Senior Executive Officer
