**Subject:** Indaver incinerator

Dear Sir/Madam,

I was wondering whether the EPA had reached a decision as regards Indaver Ireland's application for a licence for its waste facility at Carranstown? I am interested in this out of a concern for the dioxin emissions that are inevitable as a result of an incinerator. I would appreciate if you could send me any further information with regard to Indaver Ireland, and the EPA's opinion on incineration for the country as a whole.

Many thanks,  
Rob Dolan
