Dear Sir,

• Brendan Manby and family wish to object to issue of a Waste Licence on the following grounds.

1. Unsuited site: The proposed site is totally unsuitable because of its proximity to our village and the local National School.
2. Foul Smells as experienced on numerous occasions last summer, and in particular the weekends.
3. My quality of life is severely hampered as we often feel like prisoners in our own home because we cannot open a window or door because of the smell.
4. Pollution of existing water courses flowing to the River Blackwater.

•
For your attention, please.

Brendan Manby
