Dear Sir/Madam

I am writing this letter to you to object to Organic Gold in Wilkinstown Navan Co. Meath. The smell around the village makes you sick you cannot hang clothes on the line, kids cannot play outside. The cattle can't drink out of the water as there is human faeces floating on top of the water. There will be too much heavy traffic going by the school which is already a disaster waiting to happen. We work hard to pay our mortgage and our home will be devalued we won't be able to sell it. Fresh air will be a thing of the past. What is the point in working to pay for your house if you have to breathe in human faeces you should put it somewhere that is fairly isolated. Giving Organic Gold planning permission is like giving them the right to take money out of our pockets. I always thought this was a free state not a police state by giving planning it is another step down the line to make it a police state. The kids of the future suffer both physically and mentally life is hard enough without adding to it.
