REF NO 219-1

Licence Organic Gold

DEAR Sir / Madam

Organic Gold have applied for
a waste licence which will
allow them to have 25000 tonnes
of waste

I wish to voice my concern
and am objecting for the

Following Reasons

1. The ~~is~~ very foul smell which comes from this plant is sickening which results in not ~~being~~ being able to hang out a wash, I have small children which I cannot let out to play with the smell, my windows and doors have to be kept closed for the smell would be through the house.

2. The local school is very close to the proposed plant and that is where I hope to send my children to school.

3. There is a threat of pollution to the yellow River which is a Salmon Spawning River

4. If this goes ahead it also means extra volume of Heavy Goods Vehicles going through Wilkinstown Village, and the plant is very close to the village

5. My property will ^{for} a certain loose value if this plant goes ahead.

Please when assessing the application from Organic Gold can you take these issues into account.

~~WSP~~

Your faithfully

Niall Monaghan
