RE- Licence organic field
Ref no 219-1

Dear Sir/Madam

I wish to object to the above plant in Wilkinstown for the following reasons, 1) The smells that come from this plant is unbearable, they are so bad I cannot open the windows in my house, I cannot hang out a wash and I cannot sit out in

my back garden, the children cannot play ~~and~~ outside as their hair and clothes stink with this foul smell so therefore I take them to a park 5 miles away.

2) The Yellow River which is a Salmon spawning River is in danger with the threat of pollution.

3) Also the local school where my children will be attending is very close to this plant.

4) The plant is also very close to the village.

5) The volume of heavy goods vehicles through our village has also increased.

6) I have no doubt if this plant goes ahead our properties will lose their value.

Can you please take these issues
into account when assessing the application
for organic yield.

Thanking you for your time.

Yours faithfully

Judith Diff.
