RE: Application by Thornton's Recycling Ltd, Killoon Rd. Dublin for a waste permit to operate a composting facility at Pass of Killbide, Milltownpass, Co. Westmeath.

For inspection purposes only.
Consent of copyright owner required for any other use.

Dear Sir/Madam,

I object because the proposed site is:-

- A On top of aquifer.
- B Increased traffic on an already bad road.
- C Decrease in air quality especially for young & elderly
- D Noise which will migrate to sea rats flies etc
- E Decrease in property values
- F Raw material being in increased from Dublin area.
- G. Damage to fish spawning rivers
- H. Contrary to Midlands Waste Management Plan

Re: Waste Licence application by Thornton's Recycling LTD for a Composting Facility at Pass of Kilbride, Milltownpass, Co. Westmeath.

I wish to object to the granting of this licence for the following reasons:-

- 1) The facility will be in contravention of the Midlands Waste Management Plan.
- 2) The proposal is contrary to the Westmeath County Development Plan.
- 3) It could cause the pollution of air, surface water, water courses, & ground water in the area.
- 4) It could damage the wells in the area.
- 5) It could damage fish-breeding areas downstream in the Kinneagad river.
- 6) It could create noise pollution.

P.T.O.-

4) Bio-aerosols could damage human & animal health.

As a resident close to the proposed site, I am deeply concerned for the health & well-being of my family & neighbours in the future & am strongly against this facility.

As a body set up to protect our health & environment, I trust that you will not grant a licence to Thornton's National Heritage Area.

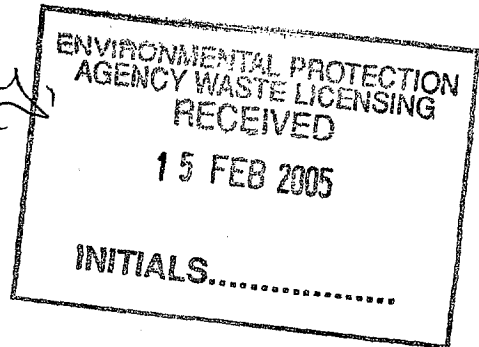

Yours Sincerely,
Geraldine O'Connell

RE: THE PLANNING APP. BY 'THORNTON'S RECYCLING',
KILLEEN ROAD, DUBLIN, TO CONSTRUCT A
COMPOSTING FACILITY AT KILBRIDE, MILLTOWNPASS.

DEAR SIR/MADAM,

I OBJECT IN THE STRANGEST TERMS, TO THE
ABOVE PROPOSAL. MY REASONS ARE MANY AND
ABSOLUTELY VALID, OF WHICH THE FOLLOWING ARE
BUT A SMALL SAMPLE :

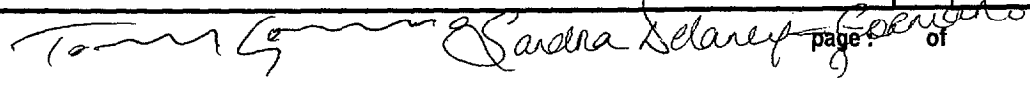

- ▷ THE FACILITY CAN BRING NOTHING TO OUR RURAL
COMMUNITY BUT BAD SMELLS, VERMIN, FLIES
AND WATER POLLUTION.
 - ▷ A MASSIVE INCREASE IN THE VOLUME OF H.G.V.'S
TO THIS ALREADY TERRIBLE BOG ROAD, WHICH
INCIDENTLY IS BARELY SUITABLE FOR TRACTORS/CARS
NEVERMIND FORTY TON TRUCKS !
 - ▷ PROPERTY PRICES ARE SURE TO FALL.
 - ▷ THE AFOREMENTIONED H.G.V.'S WILL SURELY BE
TURNING RIGHT FROM DUBLIN, CAUSING DELAYS
ON THIS ALREADY DISGRACEFUL SECTION OF THE
SO-CALLED N6.
 - ▷ THE PROPOSED FACILITY IS CONTRARY TO THE
'MIDLANDS WASTE MANAGEMENT PLAN'.
- MY WIFE AND I WILL FIGHT THIS TO THE BITTER

END .

re. Waste licence application by Thorntons Recycling
Centre Ltd. for a composting facility at
Pass of Kilbride, Milltownpass, Co. Westmeath.

Dear Sir,

I wish to object to a licence being granted, as above, for the following reasons:-

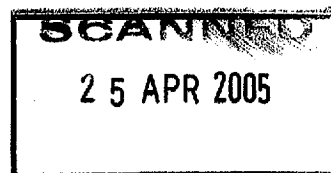

- (1) My property has been designated by Ducas, the Heritage Service, as a National Heritage Area (NHA) (Site code 2323). To have waste water from the proposed compost manufacturing facility seeping in, plus continuous noise from lorries and their fumes would be detrimental to the objectives of a NHA.
- (2) The proposed facility would create dust spores (aspergillus) which are a high health risk to humans and animals. Therefore, the facility would be at odds with the objectives of a NHA. Continuous noise and smells would greatly upset wildlife.
- (3) The statement of Thorntons in their newsletter that "the facility has natural tree screening" is totally incorrect. The trees surrounding the proposed site are hidden in grass. They were only planted in April, 2004 and will not be of any use for screening for, at least, 25 years.
- (4) The reputation of the Thornton company is bad. It has been well reported in national newspapers that they have found guilty and heavily fined in court for illegal dumping.

Yours faithfully,

GUNTER HEYDEL.

Signed on his behalf by Cecil Ronaldson, as authorised Agent.

Re: The planning application by Thornton's recycling, Killeen rd Dublin to construct a large composting facility at Kilbride Milltownpass, Co Westmeath.

To whom it may concern,

I wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons :

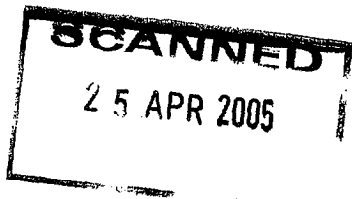

Siting an industrial facility in a rural area.
The increased volume of articulated vehicles on our local roads and the consequences for the safety of our children who use these at present as a valuable amenity for walking and cycling.

Vermin – rat, foxes, crows, seagulls, magpies, flies, badgers and other scavenger-type animals will be attracted to and multiply in such a facility, increasing the health risks to all humans, domestic, wild and farm animals in the area.
Sourcing of raw material – given that the company has told us that they will source hotel and restaurant waste from the Dublin area, knowing as I do that many of these food outlets purchase meat from suppliers who in turn source this outside the stringent controls of the E.U.(where Foot and Mouth ,T.B., Asian Fowl flu etc. are endemic).
Air quality – airborne aspergilli will irritate our lung tissue, especially in winter when our immune system is already trying to cope with the usual colds and flu.
Composting is the way of the future but I will not accept waste, produced outside the catchment area of Mullingar, to be processed at a site opposite my front door!

To site a large compost facility on top of a known aquifer is Genocide

Yours faithfully,
Wm. Allen

Re: Waste licence application by Thornton's
Recycling Ltd for a Composting Facility
at Pass of Kilbride, Mulltown pass, Co Westmeath

I wish to object to the granting of this
licence for the following reasons.

The Road leading to the site
is totally unsuitable for the
Amount and size of proposed traffic,
and may also have a damaging effect
on the health of people in the area.

Suzanne Holdy

Suggested reasons for objecting. Please select the ones you wish and/or add your own.

1. The facility will be in contravention of the Midlands Waste Management Plan.
2. The road leading to the site is totally unsuitable for the amount and size of the proposed traffic. 90 Lorries each way.
3. The proposal is contrary to the Westmeath County Development Plan.
4. It could have a damaging effect on the health of people in the area.
5. It could cause the pollution of air, surface water, water courses, and groundwater in the area.
6. It could lead to an increase in vermin, flies, and scavenger-birds.
7. It could damage the wells in the area.
8. It could damage the underlying aquifer.
9. It could damage fish-breeding areas downstream in the Kinnefad River.
10. It could create odour problems.
11. It could create noise pollution.
12. It could have a severe effect on the Milltownpass N.H.A. next to it.
13. Bio-aerosols could damage human and animal health.

**Re: Application By Thornton's Recycling Ltd for a proposed
Composting Facility at the Pass of Kilbride, Milltownpass, Co.
Westmeath.**

SCANNED
25 APR 2005

To Whom It May Concern:,

I Molly Hughes wish to object to the granting of a waste license to Thornton's Recycling Ltd for the purpose of processing large quantities of waste at MilltownPass, Co. Westmeath for the following reasons.

1. The facility will be in Contravention of the Midlands Waste Management Plan.
2. The road leading to and from the site is totally unsuitable for the amount of proposed traffic.
3. The proposal of the composting facility at the Pass of Kilbride is Contary to the Co. Westmeath Development Plan.
4. The Composting Facility Will Cause pollution of water and air in a wide vicinity of the proposed facility.
5. All Water courses and water facilities will be destroyed hence greatly affecting the people of the community.
6. It will greatly increase the population of Vermin, such as rats and foxes, flies and scavenger birds.
7. It will damage the underlying aquifer which has been confirmed to be present beside the proposed site.
8. It will damage and potentially kill all fish breeding areas in local rivers and downstream in the Kinnegad River.
9. It will cause Odour problems in a wide surrounding area and will affect the community in a wide radius of the proposed facility.
10. It will have a damaging effect on the health of the people in the surrounding areas.

For inspection purposes only.
Consent of copyright owner required for any other use.

11. It will create noise pollution in the area and also traffic problems on a road network that will be unable to cope with the Heavy goods vehicles every day.
12. It will have a severe effect on the Milltown pass N.H.A next to the proposed composting facility
13. The Bio-Aerosols associated with the proposed composting facility will damage animal and human health.
14. The facility will be an economic threat to the farming industry and other related industries.
15. There will be a potential for imported livestock diseases in raw materials that will be dumped at the proposed facility

Regards,

Molly Hughes Feb 08 2005

Re: Planning application by Thornton's recycling, Killeen rd Dublin, to construct a large composting Facility at Kilbride, Milltownpass, Co Westmeath.

To Whom it may concern;

We the undersigned wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons;

Composting as you know is a biological process that has the potential to emit large quantities of bio aerosols and therefore could affect public health as well as animal and plant life.

As a resident of Ireland and an American citizen I feel we all have a right to breath clean air and not have to worry what this company will do to our health over the coming years, not only to ourselves but our children and grand-children.

No one can guarantee that this company can keep anyone safe from the effects from their composting.

They cannot guarantee there will be no increase of vermin, foxes, badgers etc., as a result of there composting.

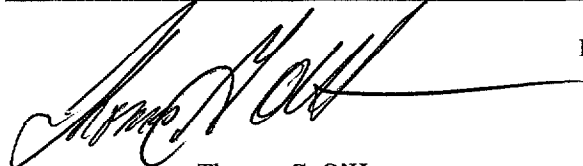

They cannot guarantee that they can contain any mishaps, or that they will be able to inform local people of mishaps however serious.

They cannot guarantee that this plant will have no effect on property values to land and houses that surround them.

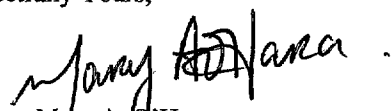

The only guarantee we do have will be increase of traffic on roads already plagued with accidents and death.

As the parents of FIVE young children, the road is a nightmare and We are sure We speak for others that we don't need to turn it into a horror show.

We believe, We all should recycle and We believe in composting.
We do not believe our community should do both for the rest of the country

Thomas G. O'Hara

Respectfully Yours;

Mary A. O'Hara

Both of us are signing as well for our Children Conor, Cormac, Devon, Ciara and Jack

Re Waste licence application by Thornton's Recycling Ltd, for a Composting Facility at Pass of Kilbride, Milltownpass, Co Westmeath.

Dear Sir/ Madam,

We ask you to refuse this licence on the grounds laid out below.

The proposed facility could cause injury to the health and well being of our family and the people in the area.

It could cause pollution to our surface water, water courses and groundwater.

It could cause an increase in vermin, flu's and scavenging birds .

It could have a terrible effect on the Milltownpass Bog N.H.A. which lies immediately adjacent. This could affect local flora and fauna.

It could lead to health problems for local farm animals, through bio - aerosols.

The road serving the proposed site is totally unsuitable.

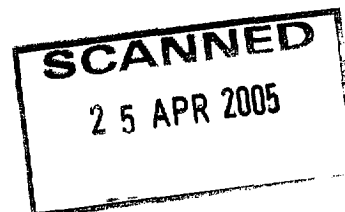

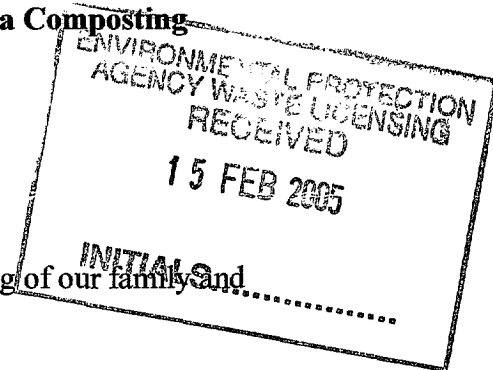

It could result in an odour problem in the area

I sincerely hope that you take my objections seriously, and refuse the granting of a licence for such a project.

Yours Sincerely

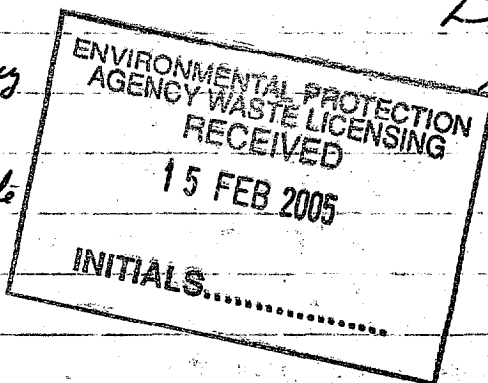

Loena Daly

RE: Waste licence application by Thorntons Recycling Ltd for a Composting facility at Pass of Kilbride, Milltownpass, Co Westmeath.

I wish to object to the granting of this licence for the following reasons,

I believe that this proposed facility will have a harmful effect on the health of the people and wildlife living in the area. It will certainly cause air pollution which affects all and I am sure it would also be the cause of serious noise pollution. I would also fear that the plant could cause a rather damaging odour in what would be a considerable green area. I've also been informed of the use of Bio-aerosols which again would be only harmful to human and animal alike which is extremely worrying. I would appreciate if you take this matter "extremely" seriously as our standard of living would be greatly effected.

Re: Waste License application to Thorntons Recycling Ltd. for a Composting facility at Pass of Kilbride, Milltownpass, Co. Westmeath.

Dear secretary,

I wish to object to the proposed granting of this licence for the following reasons;

- The proposed facility will be in contravention of the **Midlands Waste Management Plan** and the **Westmeath County Development Plan**.
- The proposed facility could have a damaging effect on the **health** of the people in the local area and surrounding hinterlands, especially in the village of Milltownpass where recently there has been a new **Atheistic Unit** opened at the primary school by Minister Hannafin.
- Also the bio-aerosols released by this plant could cause serious damage to animals in the region, as this is an Equine and Bovine breeding area.
- This plant is proposed to be constructed on an underlying aquifer which in turn feeds all the local wells in the area and also into the **Kinnegad river** and its spawning grounds which is a tributary of the **Boyne river**.
- This proposed plant will also lead to an **increase in pollution**, such as vermin, flies, odours, noise and dust.
- The proposed Composting Plant could have a serious and damaging effect on the bordering **Milltownpass National Heritage Area**, by their proposal to upgrade the road which would in turn lead to lowering of the natural water table of the bogland.
- The majority of **raw material** for the proposed facility will be transported by lorry from the greater Dublin and Galway areas. This includes mainly waste from the hotel and catering industries. This procedure would be highly dangerous as it would include meat particles such as chicken and beef imported from South America, which is notorious for its outbreaks of **Foot and Mouth**.

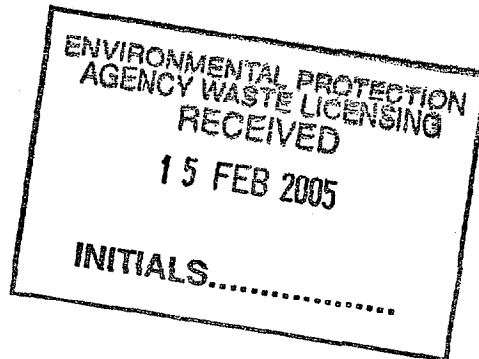

Therefore I feel that this plant should be located in an industrial region or close to an already existing landfill and not in a rural and agricultural setting such as Pass of Kilbride in Milltownpass. I hope you take my fears and concerns into account and refuse a Waste Licence to Thorntons for this plant on the reasons I have mentioned above.

Yours sincerely,

Re: The planning application by Thornton's recycling, Killeen rd Dublin to construct a large composting facility at Kilbride Milltownpass, Co Westmeath.

To whom it may concern,

I wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons :

Siting an industrial facility in a rural area.

The increased volume of articulated vehicles on our local roads and the consequences for the safety of our children who use these at present as a valuable amenity for walking and cycling.

Vermin – rat, foxes, crows, seagulls, magpies, flies, badgers and other scavenger-type animals will be attracted to and multiply in such a facility, increasing the health risks to all humans, domestic, wild and farm animals in the area.

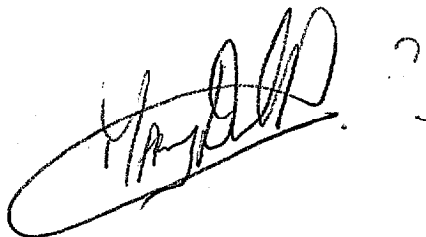

Sourcing of raw material – given that the company has told us that they will source hotel and restaurant waste from the Dublin area, knowing as I do that many of these food outlets purchase meat from suppliers who in turn source this outside the stringent controls of the E.U. (where Foot and Mouth ,T.B., Asian Fowl flu etc. are endemic).

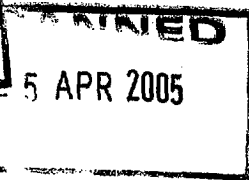

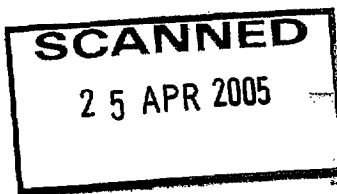

Air quality – airborne aspergilli will irritate our lung tissue, especially in winter when our immune system is already trying to cope with the usual colds and flu.

Composting is the way of the future but I will not accept waste, produced outside the catchment area of Mullingar, to be processed at a site opposite my front door!

To site a large compost facility on top of a known aquifer is Genocide

Yours faithfully,

Dear Sir / Madam,

I object to the granting of a
waste licence to Thornton's Waste, Dublin at Pass of Ullvide
Smeltounpass Co. Westmeath because...

- (1) All our wells will be poisoned
- (2) Our air polluted with fine dust containing spores
- (3) The smell will be appalling.
- (4) Rats, mice, flies will increase & multiply.
- (5) This will be an industrial plant in the heart of the country.
- (6) Extra large articulated lorries on a main road:
 - (1) Danger to walkers, cyclists etc.
 - (2) Let inhabitants in Dublin take responsibility for their own waste

Yours faithfully

Re. waste licence application by Thornton's Recycling Ltd for a composting facility at Pass of Kilbride milltownpass, Colwestmeath.

I wish to object to the granting of this licence for the following reasons,

- 1) It could have a damaging effect on the health of people in the area.
- 2) It could create odour problems.
- 3) It could create noise pollution.
- 4) The proposal is contrary to the Westmeath County development Plan.
- 5) It could ^{damage} the wells in the area.

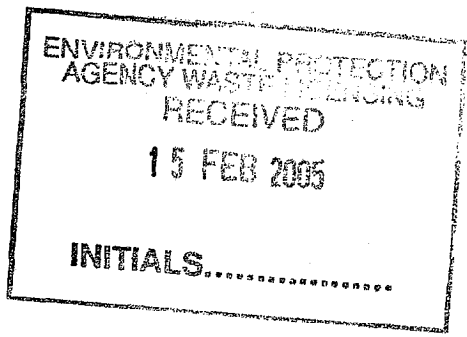

Eileen Harris.

Re: Waste License application to Thorntons Recycling Ltd. for a Composting facility at Pass of Kilbride, Milltownpass, Co. Westmeath.

Dear secretary,

I wish to object to the proposed granting of this licence for the following reasons;

- The proposed facility will be in contravention of the **Midlands Waste Management Plan** and the **Westmeath County Development Plan**.
- The proposed facility could have a damaging effect on the **health** of the people in the local area and surrounding hinterlands, especially in the village of Milltownpass where recently there has been a new **Atheistic Unit** opened at the primary school by Minister Hannafin.
- Also the bio-aerosols released by this plant could cause serious damage to animals in the region, as this is an Equine and Bovine breeding area.
- This plant is proposed to be constructed on an underlying aquifer which in turn feeds all the local wells in the area and also into the **Kinnegad river** and its spawning grounds which is a tributary of the **Boyne river**.
- This proposed plant will also lead to an **increase in pollution**, such as vermin, flies, odours, noise and dust.
- The proposed Composting Plant could have a serious and damaging effect on the bordering **Milltownpass National Heritage Area**, by their proposal to upgrade the road which would in turn lead to lowering of the natural water table of the bogland.
- The majority of **raw material** for the proposed facility will be transported by lorry from the greater Dublin and Galway areas. This includes mainly waste from the hotel and catering industries. This procedure would be highly dangerous as it would include meat particles such as chicken and beef imported from South America, which is notorious for its outbreaks of **Foot and Mouth**.

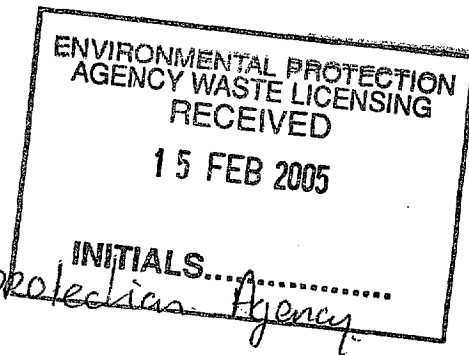

Therefore I feel that this plant should be located in an industrial region or close to an already existing landfill and not in a rural and agricultural setting such as Pass of Kilbride in Milltownpass. I hope you take my fears and concerns into account and refuse a Waste Licence to Thorntons for this plant on the reasons I have mentioned above.

Yours sincerely,

Regina German Deputy

Re: The planning application by Thornton's recycling, Killeen rd Dublin to construct a large composting facility at Kilbride Milltownpass, Co Westmeath.

To whom it may concern,

I wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons :

Siting an industrial facility in a rural area.
The increased volume of articulated vehicles on our local roads and the consequences for the safety of our children who use these at present as a valuable amenity for walking and cycling.

Vermin – rat, foxes, crows, seagulls, magpies, flies, badgers and other scavenger-type animals will be attracted to and multiply in such a facility, increasing the health risks to all humans, domestic, wild and farm animals in the area.
Sourcing of raw material – given that the company has told us that they will source hotel and restaurant waste from the Dublin area, knowing as I do that many of these food outlets purchase meat from suppliers who in turn source this outside the stringent controls of the E.U. (where Foot and Mouth ,T.B., Asian Fowl flu etc. are endemic).

Air quality – airborne aspergilli will irritate our lung tissue, especially in winter when our immune system is already trying to cope with the usual colds and flu.
Composting is the way of the future but I will not accept waste, produced outside the catchment area of Mullingar, to be processed at a site opposite my front door!

To site a large compost facility on top of a known aquifer is Genocide

I Dear Lynch,

wish to object to the granting of the waste
licence application by Thornton's Recycling Ltd for
a composting facility at pass of Kilbride,
Milltown Pass, Co Westmeath.

I wish to object to the granting
of the licence for the following reasons:

1. The river beside the dump will
be polluted which is a great fishing
spot in summer.

2. Country wild life will be effected.

3. The large lorries could cause
accidents on the narrow road.

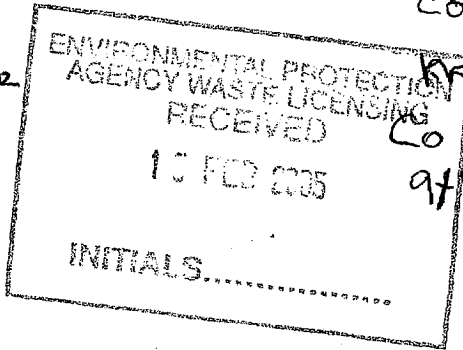

4. It could cause an increase in vermin
and a decrease in house prices.

Yours sincerely,
Dean Lynch.
