The Secretary,
The Environmental Protection Agency,
Box 3000,
Johnstown Castle Estate,
Co. Wexford.

Dear Sir / Madam,

I object to the granting of a waste licence to Thornton's Waste, Dublin at Pass of Mullide Miltownpass Co. Westmeath because:

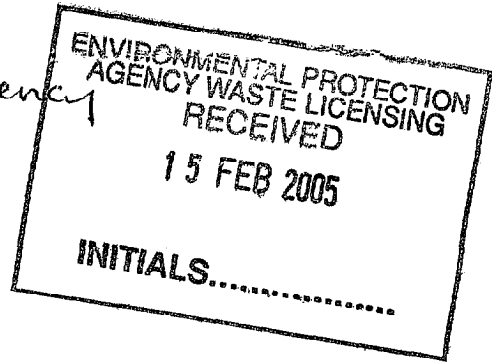

- (1) All our wells will be poisoned
- (2) Our air polluted with fine dust containing spores
- (3) The smell will be appalling
- (4) Rats, mice, flies will increase & multiply.
- (5) This will be an industrial plant in the heart of the country.
- (6) Extra large articulated lorries on a minor road
- (7) Danger to walkers, cyclists etc.
- (8) Let inhabitants in Dublin take responsibility for their own waste

Yours faithfully Christopher Doyle

Dear Sir

**Re : Application by Thornton's Recycling Centre Ltd for a composting facility at
Pass of Kilbride, Milltownpass, Co Westmeath**

I strongly object to the granting of a waste licence to Thornton's Recycling for the purpose of processing large quantities of waste at Pass of Kilbride, Milltownpass for the following reasons :-

- a) The proposed composting facility would be sited on an area which will cause widespread pollution to all domestic wells within a radius of 2-3 miles.
- b) It would also create noise and air pollution.
- c) The road which leads to the proposed site is absolutely unsuitable for articulated lorries/HGVs which would deposit waste there.
- d) The proposed facility would be in contravention to the Midlands Waste Management Plan and is contrary to the Westmeath County Development Plan.

Kilbride, Milltownpass, Co. Westmeath

I wish to object to the
granting of this licence for the
following areas.

This proposal is contrary to the
Westmeath County Development
plan and will have damaging
effect on the health of people

in the Milltownpass area. putting
this near the beautiful tidy
Milltownpass will cause a lot of
odour and noise pollution. The road
leading to the site is totally unsuitable
for the amount and size of the
proposed traffic I would be 90
lorries each way, also Bio-aerosols
could damage human and animal
health

RE. Planning application by Thornton's Recycling Centre Ltd., for a composting facility at Pass of Kilbride, Milltownpass, Co. Westmeath.

To Whom It May Concern:

I wish to highlight my deep concerns, and object to the granting of a waste licence to Thornton's recycling Ltd. For the purpose of processing large quantities of waste products at The Pass of Kilbride, Milltownpass, Co. Westmeath.

I will list some factor's, which pose the greatest threat to my family and neighbours alike.

- This facility will be in violation with "The Midlands Waste Management Plan"
- The proposal is also in contra version of "The Westmeath County Development Plan".
- This could lead to air pollution, and as there are no plans to deal with or treat the stagnant run off waste water, it is highly likely that pollution of the underlying aquifer nearby streams and local domestic well will occur.
- It would be dangerous to risk poisoning or polluting the local water systems, as this would affect every local citizen, livestock's, and fish stocks for miles around. Every citizen has a right to safe drinking water.
- This facility will have damaging effects to the health of locals, and there is research evidence, which shows a direct correlation between families living near waste management sites and higher levels of foetal abnormalities and certain cancers.

Yours sincerely

Viola Lynch

Re: The planning application by Thornton's recycling, Killeen rd Dublin to construct a large composting facility at Kilbride Milltownpass, Co Westmeath.

To whom it may concern,

I wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons :

Siting an industrial facility in a rural area.
The increased volume of articulated vehicles on our local roads and the consequences for the safety of our children who use these at present as a valuable amenity for walking and cycling.

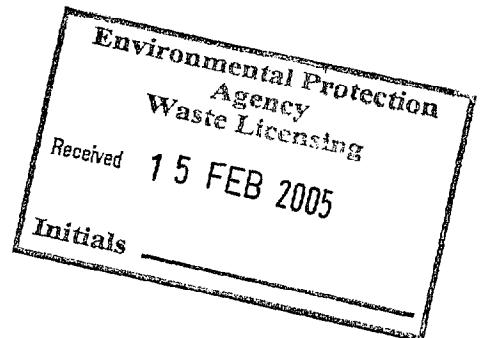

Vermin – rat, foxes, crows, seagulls, magpies, flies, badgers and other scavenger-type animals will be attracted to and multiply in such a facility, increasing the health risks to all humans, domestic, wild and farm animals in the area.
Sourcing of raw material – given that the company has told us that they will source hotel and restaurant waste from the Dublin area, knowing as I do that many of these food outlets purchase meat from suppliers who in turn source this outside the stringent controls of the E.U. (where Foot and Mouth, T.B., Asian Fowl flu etc. are endemic).

Air quality – airborne aspergilli will irritate our lung tissue, especially in winter when our immune system is already trying to cope with the usual colds and flu.
Composting is the way of the future but I will not accept waste, produced outside the catchment area of Mullingar, to be processed at a site opposite my front door!

To site a large compost facility on top of a known aquifer is Genocide

Yours faithfully,

Trevor Doheerty

Re: waste License application to Thorntons Recycling Ltd. for a Composting facility at Pass of Kilbride, Milltownpass, Co. Westmeath.

Dear secretary,

I wish to object to the proposed granting of this licence for the following reasons;

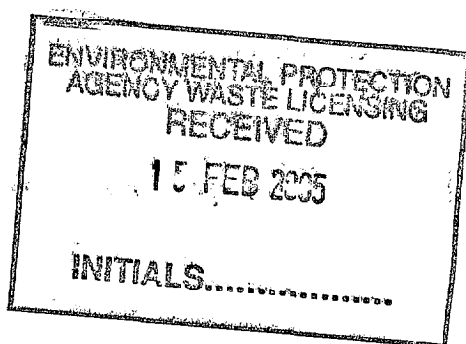

- The proposed facility will be in contravention of the **Midlands Waste Management Plan** and the **Westmeath County Development Plan**.
- The proposed facility could have a damaging effect on the **health** of the people in the local area and surrounding hinterlands, especially in the village of Milltownpass where recently there has been a new **Atheistic Unit** opened at the primary school by Minister Hannafin.
- Also the bio-aerosols released by this plant could cause serious damage to animals in the region, as this is an Equine and Bovine breeding area.
- This plant is proposed to be constructed on an underlying aquifer which in turn feeds all the local wells in the area and also into the **Kinnegad river** and its spawning grounds which is a tributary of the **Boyne river**.
- This proposed plant will also lead to an **increase in pollution**, such as vermin, flies, odours, noise and dust.
- The proposed Composting Plant could have a serious and damaging effect on the bordering **Milltownpass National Heritage Area**, by their proposal to upgrade the road which would in turn lead to lowering of the natural water table of the bogland.
- The majority of **raw material** for the proposed facility will be transported by lorry from the greater Dublin and Galway areas. This includes mainly waste from the hotel and catering industries. This procedure would be highly dangerous as it would include meat particles such as chicken and beef imported from South America, which is notorious for its outbreaks of **Foot and Mouth**.

Therefore I feel that this plant should be located in an industrial region or close to an already existing landfill and not in a rural and agricultural setting such as Pass of Kilbride in Milltownpass. I hope you take my fears and concerns into account and refuse a Waste Licence to Thorntons for this plant on the reasons I have mentioned above.

Yours sincerely,

James Forc.

- The majority of **raw material** for the proposed facility will be transported by lorry from the greater Dublin and Galway areas. This includes mainly waste from the hotel and catering industries. This procedure would be highly dangerous as it would include meat particles such as chicken and beef imported from South America, which is notorious for its outbreaks of **Foot and Mouth**.

Therefore I feel that this plant should be located in an industrial region or close to an already existing landfill and not in a rural and agricultural setting such as Pass of Kilbride in Milltownpass. I hope you take my fears and concerns into account and refuse a Waste Licence to Thorntons for this plant on the reasons I have mentioned above.

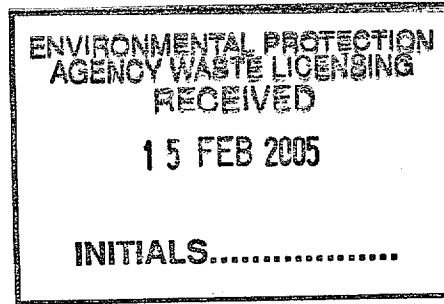

Yours sincerely,

Betty Fox.

Re: Waste Licence Application by Thornton's Recycling Ltd
For a Composting Facility at Pass of Kilbride, Milltownpass, Co Westmeath

Dear Sirs

I wish to object to the proposed granting of this licence for the following reasons:-

1. It could have a damaging effect on the health of the people in the area.
2. It could cause the pollution of air, surface water, water courses, and ground water in the area.
3. It could lead to an increase in vermin and scavenger-birds.
4. It could damage the wells in the area.
5. It could damage the underlying aquifer.
6. It could damage fish-breeding areas downstream in the Kinnegad River.
7. It could create odour problems.
8. It could create noise pollution.
9. It could have a severe effect on the Milltownpass N.H.A. next to it.

Yours faithfully

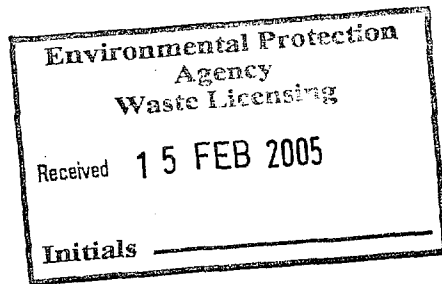

William & Sharon Faulkner

Coralstown.

RE: Application by Thornton's Recycling Ltd, Killan Rd.
Dublin for a waste permit to operate a composting
facility at Pass of Killrude, Mulltompess, Co. Westmeath.

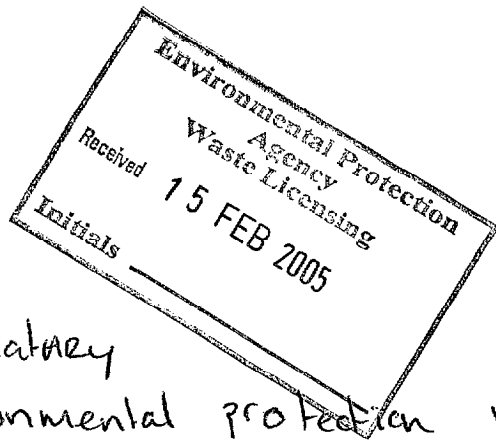

Dear Sir / Madam,

For inspection purposes only.
Consent of copyright owner required for any other use.

I object because the proposed site is:-

- A On top of aquifer.
- B Increased traffic on an already bad road.
- C Decrease in air quality especially for young & elderly
- D Nuisance which will migrate to sea rats flies etc
- E Decrease in property values
- F Raw material coming in increased from Dublin area.
- G Damage to fish spawning rivers
- H. Contrary to Medlans Waste Management Plan

Re: waste License application to Thorntons Recycling Ltd. for a Composting facility at Pass of Kilbride,
Milltownpass, Co. Westmeath.

Dear secretary,

I wish to object to the proposed granting of this licence for the following reasons;

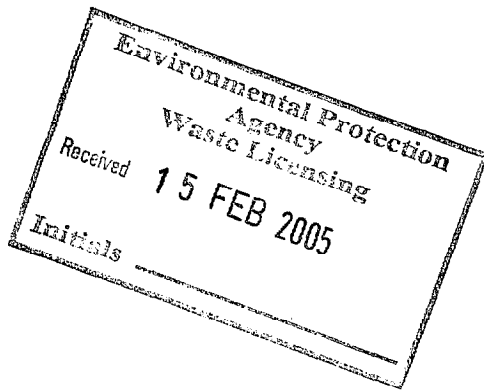

- The proposed facility will be in contravention of the **Midlands Waste Management Plan** and the **Westmeath County Development Plan**.
- The proposed facility could have a damaging effect on the **health** of the people in the local area and surrounding hinterlands, especially in the village of Milltownpass where recently there has been a new **Atheistic Unit** opened at the primary school by Minister Hanaffan.
- Also the bio-aerosols released by this plant could cause serious damage to animals in the region, as this is an Equine and Bovine breeding area.
- This plant is proposed to be constructed on an underlying aquifer which in turn feeds all the local wells in the area and also into the **Kinnegad river** and its spawning grounds which is a tributary of the **Boyne river**.
- This proposed plant will also lead to an **increase in pollution**, such as vermin, flies, odours, noise and dust.
- The proposed Composting Plant could have a serious and damaging effect on the bordering **Milltownpass National Heritage Area**, by their proposal to upgrade the road which would in turn lead to lowering of the natural water table of the bogland.
- The majority of **raw material** for the proposed facility will be transported by lorry from the greater Dublin and Galway areas. This includes mainly waste from the hotel and catering industries. This procedure would be highly dangerous as it would include meat particles such as chicken and beef imported from South America, which is notorious for its outbreaks of **Foot and Mouth**.

Therefore I feel that this plant should be located in an industrial region or close to an already existing landfill and not in a rural and agricultural setting such as Pass of Kilbride in Milltownpass. I hope you take my fears and concerns into account and refuse a Waste Licence to Thorntons for this plant on the reasons I have mentioned above.

**RE: Application by Thornton's Recycling Ltd. For a composting facility
at Pass of Kilbride, Milltownpass, Co. Westmeath**

To whom it may concern,

I wish to object to the granting of a waste licence to Thornton's Recycling Ltd. for the purpose of processing large quantities of waste at Pass of Kilbride, Milltownpass, Co. Westmeath, for the following reasons:

- 1) It could cause the pollution of air, surface water, water courses and ground water in the area.
- 2) It could damage the wells in the area.
- 3) It could create odour problems.
- 4) It could lead to an increase in vermin, flies and scavenger birds.
- 5) It could have a damaging effect on the health of people in the area.
- 6) It could create noise pollution.

If this licence is granted, it will have disastrous consequences for this area.

Yours faithfully,

TOM + BERNADETTE CURTIS

 Waste Licensing
 Received 15 FEB 2005
 Initials

In Connection to Proposed Composting Facility & waste management Facility by (Thornston Re Cycling Ltd) Milltownpass.

I wish to strongly object to such a proposal as I and my family a next door neighbour of said proposal. This is a lovely quietish pleasant part of our Eire a country I would be a disgrace to even consider the affect of such a monstrosity in the neighbourhood. This area is not suited for even consideration for such a proposal.

We have a cement factory close by imposed on our community by E.P.A. whatever that means in the recent port burning coal + + + you and your Associates should know the meaning of + + + if you had any interest in zoning if you were in return for your valued responsibility. This factory is a no go area monitored by them selves / good on you. Is it any wonder that the site could be erected & into production without any licence with dust noise & emission.

being belted out on our community so much for EPA & officials.

I am asking you people to strongly consider our flight in this area before you consider the astronomical effects of such a proposal.

Infecting Smells Air Pollution not to talk of Crow spread disease + Wigeon + White Crow + all airborne birds spreading such disease into our Sheep Head + neighboring herds + Cattle herds

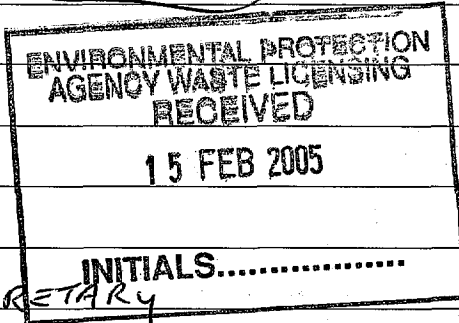

The water aqueduct undernourishes this site so when affected by pollution would destroy the safe use of all water from wells for miles around it not to talk of all the other airborne diseases which would result and have consequential effects of human animal venem + wild life and all other implications that would have

Would you or any of your officials like to consider such a monster on your back door

Thrusting you & your officials will let sense prevail to scrap this deft noting by refusing same that which is wrong for our community

Re: The planning application by Thornton's recycling, Killeen rd Dublin to construct a large composting facility at Kilbride, Milltownpass, Co Westmeath.

To whom it may concern,

I wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons :

- (1) Siting an industrial facility in a rural area.
- (2) The increased volume of articulated vehicles on our local roads and the consequences for the safety of our children who use these at present as a valuable amenity for walking and cycling.
- (4) Vermin – rat, foxes, crows, seagulls, magpies, flies, badgers and other scavenger-type animals will be attracted to and multiply in such a facility, increasing the health risks to all humans, domestic, wild and farm animals in the area.
- (5) Sourcing of raw material – given that the company has told us that they will source hotel and restaurant waste from the Dublin area, knowing as I do that many of these food outlets purchase meat from suppliers who in turn source this outside the stringent controls of the E.U. (where Foot and Mouth ,T.B., Asian Fowl flu etc. are endemic).
- (6) Air quality – airborne aspergilli will irritate our lung tissue, especially in winter when our immune system is already trying to cope with the usual colds and flu.
- (7) *Composting is the way of the future but I will not accept waste, produced outside the catchment area of Mullingar, to be processed at a site opposite my front door!*

(8) To site a large compost facility on top of a known aquifer is Genocide

Yours faithfully, *Dobree Mc Carrn*

Re: Application for Waste Disposal
To Whom it may Concern
I wish to object to the proposal by Thornton
Waste to erect a waste management system
at Pass of Killoide Milltownpass.
My concern is the impact such a facility
would have on our area.
We have a very large Cement plant one
side which is threatening our wells
This plant could also damage our water
supply.
There is no guarantee that our air will be
free of spores.
With any waste there is always a risk of
infestation by rodents and vermin.
It is my responsibility to help to protect the
local environment for the safety of my
children.

DEAR SIR/MADAM

RE. THE PLANNING APPLICATION BY THORNTON'S RECYCLING TO CONSTRUCT A VERY LARGE COMPOSTING FACILITY AT KILBRIDE MILLTOWNPASS CO. WESTMEATH. I WOULD LIKE TO LODGE MY OBJECTION TO THE SAME. I AM LIVING ON THE ROAD IN QUESTION AND AS IT IS THE ROAD IS NOT SUITABLE FOR THE TRAFFIC ON IT AT PRESENT. THERE IS NO WAY THAT THIS ROAD CAN BE IMPROVED SO UNLESS THORNTON'S PLAN TO FLY IN THE WASTE. THIS FACILITY IS NOT NOR EVER WILL BE SUITABLE.

THE PROPOSED SITE IS ONE OF EXTREME BEAUTY WITH MANY BEAUTIFUL BOG FLOWERS, TREES AND PLENTY OF WILD LIFE. THIS SITE WOULD BE DESTROYED FOR OUR CHILDREN AND OUR CHILDREN'S CHILDREN. I ASK YOU THE ENVIRONMENTAL PROTECTION AGENCY TO PROTECT THIS BEAUTIFUL SITE TO SAVE OUR WATER COURSES, TO SAVE OUR FISH BREEDING RIVERS, TO PROTECT OUR WELLS AND TO PROTECT OUR AQUIFER. DO NOT GRANT THIS LICENCE, THINK OF OUR CHILDREN, OUR GRANDCHILDREN, AND OUR OLD FOLK WHO CANNOT FIGHT FOR THEMSELVES. THEY DEPEND ON THEIR WELLS FOR WATER TO DRINK AND TO FEED THEIR ANIMALS.

IF GRANTED THIS FACILITY WOULD INCREASE VERMIN SUCH AS RATS, FLIES, CROWS, FOXES, BADGERS AND MAGPIES, ALL OF WHICH SPREAD DISEASE FOR MILES AROUND. DISEASE SUCH AS FOOT AND MOUTH, ASIAN SWINE FLU AND T.B. I WOULD NOT

LIKE TO BE THE ENVIRONMENT PROTECTION AGENCY IF ANY OF THESE DEADLY DISEASE TOOK HOLD HERE, AFTER ALL WE HAVE ALL TOLD YOU WHAT COVID HAPPEN.

THE PEOPLE OF COLWESTHEATH RECYCLE NOW. WE COMPOST IN OUR GARDENS AND ON OUR LAND WE HAVE FOOD DIGESTORS FROM GREEN CORE COMPOSTING BINS AVAILABLE FROM OUR COUNTY OFFICERS, RECYCLING BINS EVERYWHERE IN EVERY VILLAGE AND TOWN. WE ARE DOING OUR BIT FOR THE ENVIRONMENTAL PROTECTION AGENCY. PLEASE MAKE DUBLIN DO THERE OWN BIT LET THEM TAKE RESPONSIBILITY FOR THERE OWN WASTE PLEASE DO NOT SEND IT TO US. THINK OF OUR HEALTH AND OUR SAFETY.

YOURS RESPONSIBLY

Seiver McDannell
