Waste Licence Application re: Composting Facility at Pass of Kilbride, Milltownpass, Co Westmeath.

LoCall: 1890 33 55 99

Dear Sir/Madam,

I am to refer to your letter of 13/02/2005, received on 15/02/2005, in relation to an application for a waste licence reference number 210-1, by Thorntons Recycling Centre Ltd, in respect of a facility at Composting Facility, Pass of Kilbride, Milltownpass, Co Westmeath.

I am to advise that your letter will be treated as a submission and will be taken into account when determining the application, in accordance with the Waste Management Acts, 1996 to 2003, and Article 15 of the relevant Waste Management (Licensing) Regulations, which provides as follows:

Extract from the Waste Management (Licensing) Regulations

Submissions to the Agency regarding applications.

15. For the purpose of section 40(2)(b) of the Act, a person may make a written submission to the Agency in relation to -
- (i) an application, and
 - (ii) such plans, documents and other information and particulars, including an environmental impact statement, as are submitted by the applicant in accordance with articles 12, 13, 14 and 16, and the Agency shall not give notice of a proposed decision under section 42(2) of the Act before the expiry of a period of one month following the date of a relevant -
 - (a) acknowledgement in accordance with article 14(2)(a), or
 - (b) notice in accordance with article 16(2)(a), or
 - (c) acknowledgement in accordance with article 16(4), whichever such date is the later.

The application and associated correspondence, including the acknowledgements and notifications referred to in Article 15 above, are available on the public file relating to the application as they arise and that file may be inspected by any person during office hours at the Agency's headquarters. A copy of the file is also available for inspection at the Agency's headquarters office in Wexford and at the offices of Westmeath County Council. Copy extracts from the file will be supplied by the Agency to any person, on request, subject to payment of the reasonable cost of making the copy.

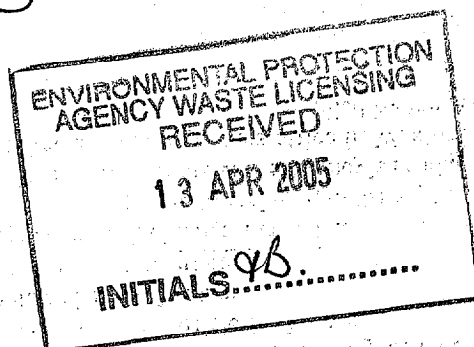

You are advised to refer to the public file for information on the progress of the application. The Agency will write to you to inform you of its proposed decision on the application in due course.

Please direct any further correspondence in relation to this matter to Administration, Office of Licensing & Guidance, Environmental Protection Agency, Headquarters, P.O. Box 3000, Johnstown Castle Estate, County Wexford.

Yours sincerely,

Waste Licence
Received 15 FEB 2005

Re: Waste licence application by Thornton's
Recycling Ltd for a Composting Facility
at Pass of Kilbride, Milltownpass, Co Westmeath

I wish to object to the granting of this
licence for the following reasons.

4. It could damage people health in
The Area.

5 It caused pollution in Area.
of Air Surface water and ground water

The Area could be become increase
with mice Rats and this would
Bring disease to The Area.

[Handwritten Signature]

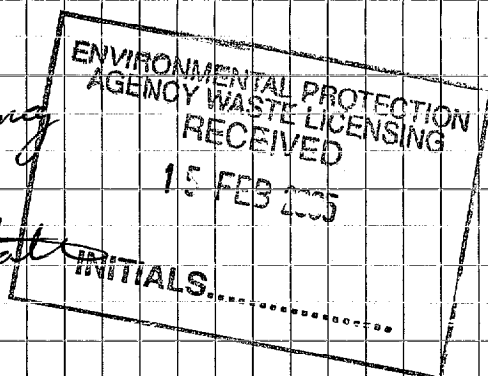

Consent of copyright owner required for any other use.

Suggested reasons for objecting. Please select
the ones you wish and/or add your own.

1. The facility will be in contravention of the Midlands Waste Management Plan.
2. The road leading to the site is totally unsuitable for the amount and size of the proposed traffic. 90 Lorries each way.
3. The proposal is contrary to the Westmorland County Development Plan.
4. It could have a damaging effect on the health of people in the area.
5. It could cause the pollution of air, surface water, water courses, and groundwater in the area.
6. It could lead to an increase in vermin, flies, and scavenger-birds.
7. It could damage the wells in the area.
8. It could damage the underlying aquifer.
9. It could damage fish-breeding areas downstream in the Kinnegad River.
10. It could create odour problems.
11. It could create noise pollution.
12. It could have a severe effect on the Milltownpass N.H.A. next to it.
13. Bio-aerosols could damage human and animal health.

Re: Waste licence application by Thornton Recycling Ltd
for a composting facility of Lass of Kilbride, Milttempas
Co. Westmeath,

I wish to object to the granting of this licence for
the following reasons —

- ① The road leading to the facility is totally unsuitable
for the amount and size of proposed traffic.
- ② It could have a dangerous effect on the health of the
people in the area
- ③ It could lead to an increase in ~~the~~ ^{the} ~~number~~ ^{number} of
scavenger birds
- ④ It could damage the underlying aquifer
- ⑤ It could create odour problems
- ⑥ It could have a serious effect on the Milttempas N. HA.
next to it.

As a resident close to this proposed site I am
greatly concerned for the value of Home and property
and for the safety of my family in this steady
to narrow of a roadway. I am totally opposed to
the granting of a licence for this proposed project.
As a body you have a duty to protect us,
our health and our Environment.

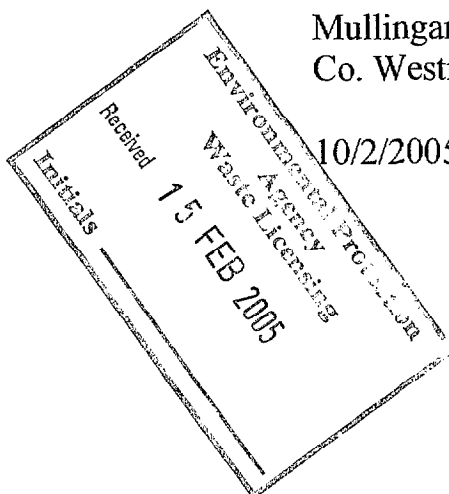

I trust you will not grant a licence to
Thornton or any such other family in this
National Heritage Area.

For inspection purposes only.
Consent of copyright owner required for any other use.

Thank you
Yours sincerely
D. W. Smith

**RE: Application by Thornton's Recycling Ltd. For a composting facility
at Pass of Kilbride, Milltownpass, Co. Westmeath**

To whom it may concern,

I wish to object to the granting of a waste licence to Thornton's Recycling Ltd. for the purpose of processing large quantities of waste at Pass of Kilbride, Milltownpass, Co. Westmeath, for the following reasons:

- 1) It could cause the pollution of air, surface water, water courses and ground water in the area.
- 2) It could damage the wells in the area.
- 3) It could create odour problems.
- 4) It could lead to an increase in vermin, flies and scavenger birds.
- 5) It could have a damaging effect on the health of people in the area.
- 6) It could create noise pollution.

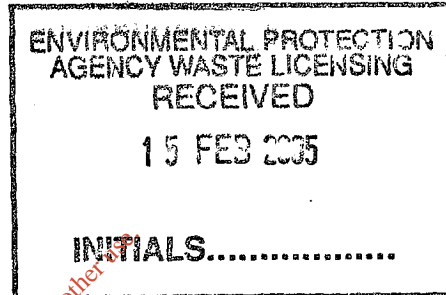

If this licence is granted, it will have disastrous consequences for this area.

Re: The planning application by Thornton's recycling, Killeen rd Dublin to construct a large composting facility at Kilbride Milltownpass, Co Westmeath.

To whom it may concern,

I wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons :

Siting an industrial facility in a rural area.
The increased volume of articulated vehicles on our local roads and the consequences for the safety of our children who use these at present as a valuable amenity for walking and cycling.

Vermin – rat, foxes, crows, seagulls, magpies, flies, badgers and other scavenger-type animals will be attracted to and multiply in such a facility, increasing the health risks to all humans, domestic, wild and farm animals in the area.
Sourcing of raw material – given that the company has told us that they will source hotel and restaurant waste from the Dublin area, knowing as I do that many of these food outlets purchase meat from suppliers who in turn source this outside the stringent controls of the E.U. (where Foot and Mouth , T.B., Asian Fowl flu etc. are endemic).

Air quality – airborne aspergilli will irritate our lung tissue, especially in winter when our immune system is already trying to cope with the usual colds and flu.
Composting is the way of the future but I will not accept waste, produced outside the catchment area of Mullingar, to be processed at a site opposite my front door!

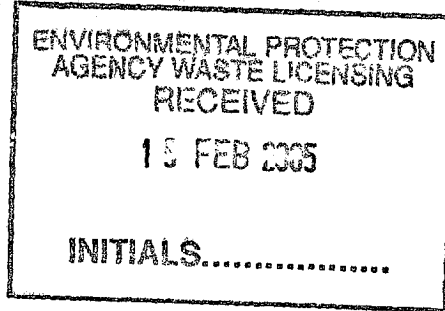

To site a large compost facility on top of a known aquifer is Genocide

Yours faithfully,

Daren Stavin

Re. Waste License application to Thornton's Recycling Ltd for a Composting Facility at Pass of Kilbrade Miltownpass Co. Westmeath

Dear Secretary

I wish to object to the proposed granting of this licence for the following reasons

- The proposed facility will be in contravention of the Midlands Waste Management Plan and the Westmeath County Development Plan
- The proposed facility could have a damaging effect on the health of the people in the local area and surrounding hinterlands especially in the village of Miltownpass where recently there has been a new Atheistic unit opened at the primary school by Minister Hannafin
- Also the bio-aerosols released by this plant could cause serious damage to animals in the region as this is a Equine and Bovine breeding area. This will also lead to an increase in pollution such as vermin flies odours noise and dust.
- The proposed composting plant could have a serious and damaging effect on the bordering Miltownpass National Heritage Area, by their proposal to upgrade the road which would in turn lead to lowering of the natural water table of the bogland.

The majority of Raw Material for the proposed facility will be transported by Lorry from the greater Dublin and Galway Areas.

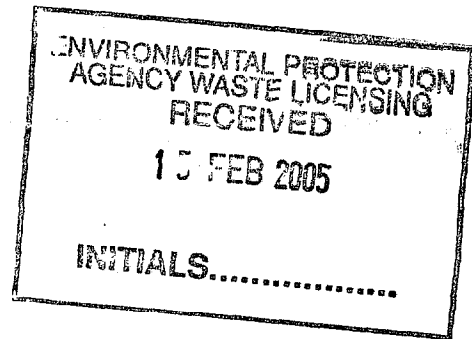

this includes mainly waste from Hotel and Catering industries. this procedure would be highly dangerous as it would include meat particles such as chicken and beef imported from South America which is notorious for outbreaks of Foot and Mouth.

therefore I feel that this plant should be located in an industrial region or close to an already existing landfill and not in a rural and agricultural setting such as

Pass of Kilbride in Miltown Pass.

I hope you take my fears and concerns into account and refuse a waste licence to Thornton's for this plant on the reasons I have mentioned above.
Yours sincerely Paddy Hughes & Family

Re: Waste License application to Thorntons Recycling Ltd. for a Composting facility at Pass of Kilbride, Milltownpass, Co. Westmeath.

Dear secretary,

I wish to object to the proposed granting of this licence for the following reasons;

- The proposed facility will be in contravention of the **Midlands Waste Management Plan** and the **Westmeath County Development Plan**.
- The proposed facility could have a damaging effect on the **health** of the people in the local area and surrounding hinterlands, especially in the village of Milltownpass where recently there has been a new **Atheistic Unit** opened at the primary school by Minister Hannafin.
- Also the bio-aerosols released by this plant could cause serious damage to animals in the region, as this is an Equine and Bovine breeding area.
- This plant is proposed to be constructed on an underlying aquifer which in turn feeds all the local wells in the area and also into the **Kinnegad river** and its spawning grounds which is a tributary of the **Boyne river**.
- This proposed plant will also lead to an **increase in pollution**, such as vermin, flies, odours, noise and dust.
- The proposed Composting Plant could have a serious and damaging effect on the bordering **Milltownpass National Heritage Area**, by their proposal to upgrade the road which would in turn lead to lowering of the natural water table of the bogland.
- The majority of **raw material** for the proposed facility will be transported by lorry from the greater Dublin and Galway areas. This includes mainly waste from the hotel and catering industries. This procedure would be highly dangerous as it would include meat particles such as chicken and beef imported from South America, which is notorious for its outbreaks of **Foot and Mouth**.

Therefore I feel that this plant should be located in an industrial region or close to an already existing landfill and not in a rural and agricultural setting such as Pass of Kilbride in Milltownpass. I hope you take my fears and concerns into account and refuse a Waste Licence to Thorntons for this plant on the reasons I have mentioned above.

Yours sincerely,

why have a Dump it will affect the County?

We would like a dump in this Community? Why have a Dump in this community it will affect the people we would not like vermin around.

Waste Licence Application re: Composting Facility at Pass of Kilbride, Milltownpass, Co Westmeath.

Dear Mr. Bennett

I am to refer to your letter received on 15/02/2005, in relation to an application for a waste licence reference number 210-1, by Thorntons Recycling Centre Ltd, in respect of a facility at Composting Facility, Pass of Kilbride, Milltownpass, Co Westmeath.

I am to advise that your letter will be treated as a submission and will be taken into account when determining the application, in accordance with the Waste Management Acts, 1996 to 2003, and Article 15 of the relevant Waste Management (Licensing) Regulations, which provides as follows:

Extract from the Waste Management (Licensing) Regulations
Submissions to the Agency regarding applications.

15. For the purpose of section 40(2)(b) of the Act, a person may make a written submission to the Agency in relation to -

- (i) an application, and
- (ii) such plans, documents and other information and particulars, including an environmental impact statement, as are submitted by the applicant in accordance with articles 12, 13, 14 and 16, and the Agency shall not give notice of a proposed decision under section 42(2) of the Act before the expiry of a period of one month following the date of a relevant -
 - (a) acknowledgement in accordance with article 14(2)(a), or
 - (b) notice in accordance with article 16(2)(a), or
 - (c) acknowledgement in accordance with article 16(4), whichever such date is the later.

The application and associated correspondence, including the acknowledgements and notifications referred to in Article 15 above, are available on the public file relating to the application as they arise and that file may be inspected by any person during office hours at the Agency's headquarters. A copy of the file is also available for inspection at the Agency's headquarters office in Wexford and at the offices of Westmeath County Council. Copy extracts from the file will be supplied by the Agency to any person, on request, subject to payment of the reasonable cost of making the copy.

You are advised to refer to the public file for information on the progress of the application. The Agency will write to you to inform you of its proposed decision on the application in due course.

Please direct any further correspondence in relation to this matter to Administration, Office of Licensing & Guidance, Environmental Protection Agency, Headquarters, P.O. Box 3000, Johnstown Castle Estate, County Wexford.

Yours sincerely,

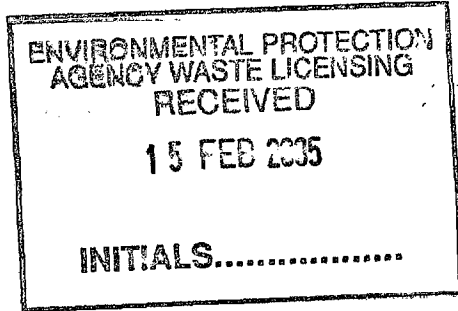

Tracey Berney

Re: The planning application by Thornton's recycling, Killeen rd Dublin to construct a large composting facility at Kilbride, Milltownpass, Co Westmeath.

To whom it may concern,

I wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons :

Siting an industrial facility in a rural area.
The increased volume of articulated vehicles on our local roads and the consequences for the safety of our children who use these at present as a valuable amenity for walking and cycling.

Vermin – rat, foxes, crows, seagulls, magpies, flies, badgers and other scavenger-type animals will be attracted to and multiply in such a facility, increasing the health risks to all humans, domestic, wild and farm animals in the area.
Sourcing of raw material – given that the company has told us that they will source hotel and restaurant waste from the Dublin area, knowing as I do that many of these food outlets purchase meat from suppliers who in turn source this outside the stringent controls of the E.U. (where Foot and Mouth, T.B., Asian Fowl flu etc. are endemic).

Air quality – airborne aspergilli will irritate our lung tissue, especially in winter when our immune system is already trying to cope with the usual colds and flu.
Composting is the way of the future but I will not accept waste, produced outside the catchment area of Mullingar, to be processed at a site opposite my front door!

To site a large compost facility on top of a known aquifer is Genocide

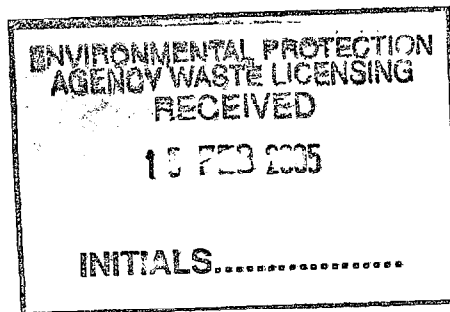

Yours faithfully,

Paul Bennett

RE: Application by Thornton Recycling Ltd, Villan Rd, Dublin for a waste permit to operate a composting facility at Pass of Killrude, Miltompass, Co. Westmeath.

For inspection purposes only.
Consent of copyright owner required for any other use.

Dear Sir / Madam,

I object because the proposed site is:-

- A On top of aquifer.
 - B Increased traffic on an already bad road.
 - C Decrease in air quality, especially for young & elderly
 - D Nuisance which will migrate to sea rats flies etc
 - E Decrease in property values
 - F Raw material mining is needed for Dublin area.
 - G. Damage to fish spawning rivers
 - H. Contrary to Midland Waste Management Plan
- Yours,
Daragh Coyne

Re: Waste licence application by Thornton's Recycling Ltd for a Composting Facility at Pass of Kilbride, Milltown-Pass, Co Westmeath.

I wish to object to the granting of this licence for the following reasons.

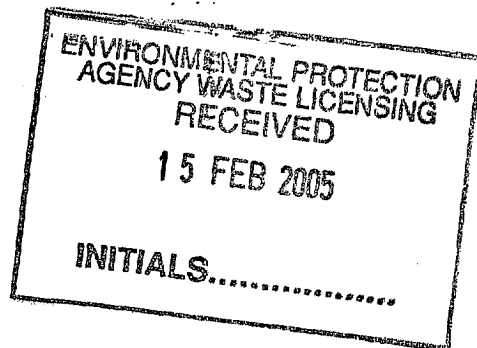

The road leading to the site is totally unsuitable for the amount and size of the proposed traffic.

It could have a damaging effect on the health of people in the area.

It could cause the pollution of air, surface water, water courses, and groundwater in the area.

Waste Licence Application re: Composting Facility at Pass of Kilbride, Milltownpass, Co Westmeath.

Dear Mr/Ms Grant

I am to refer to your letter of 10/02/2005, received on 15/02/2005, in relation to an application for a waste licence reference number 210-1, by Thorntons Recycling Centre Ltd, in respect of a facility at Composting Facility, Pass of Kilbride, Milltownpass, Co Westmeath.

I am to advise that your letter will be treated as a submission and will be taken into account when determining the application, in accordance with the Waste Management Acts, 1996 to 2003, and Article 15 of the relevant Waste Management (Licensing) Regulations, which provides as follows:

Extract from the Waste Management (Licensing) Regulations

Submissions to the Agency regarding applications.

15. For the purpose of section 40(2)(b) of the Act, a person may make a written submission to the Agency in relation to -

- (i) an application, and
- (ii) such plans, documents and other information and particulars, including an environmental impact statement, as are submitted by the applicant in accordance with articles 12, 13, 14 and 16.

and the Agency shall not give notice of a proposed decision under section 42(2) of the Act before the expiry of a period of one month following the date of a relevant -

- (a) acknowledgement in accordance with article 14(2)(a), or
- (b) notice in accordance with article 16(2)(a), or
- (c) acknowledgement in accordance with article 16(4), whichever such date is the later.

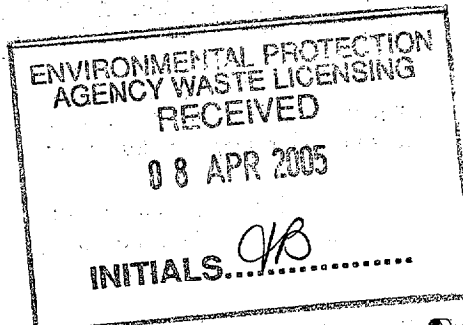

The application and associated correspondence, including the acknowledgements and notifications referred to in Article 15 above, are available on the public file relating to the application as they arise and that file may be inspected by any person during office hours at the Agency's headquarters. A copy of the file is also available for inspection at the Agency's headquarters office in Wexford and at the offices of Westmeath County Council. Copy extracts from the file will be supplied by the Agency to any person, on request, subject to payment of the reasonable cost of making the copy.

You are advised to refer to the public file for information on the progress of the application. The Agency will write to you to inform you of its proposed decision on the application in due course.

**RE: Application by Thornton's Recycling Ltd. For a composting facility
at Pass of Kilbride, Milltownpass, Co. Westmeath**

To whom it may concern,

I wish to object to the granting of a waste licence to Thornton's Recycling Ltd. for the purpose of processing large quantities of waste at Pass of Kilbride, Milltownpass, Co. Westmeath, for the following reasons:

- 1) It could cause the pollution of air, surface water, water courses and ground water in the area.
- 2) It could damage the wells in the area.
- 3) It could create odour problems.
- 4) It could lead to an increase in vermin, flies and scavenger birds.
- 5) It could have a damaging effect on the health of people in the area.
- 6) It could create noise pollution.

If this licence is granted, it will have disastrous consequences for this area.

Yours faithfully,

Ref. Waste Licence Applications by Hortons Recycling LID
For a composting facility at Pass of Killbride Milltown Pass.

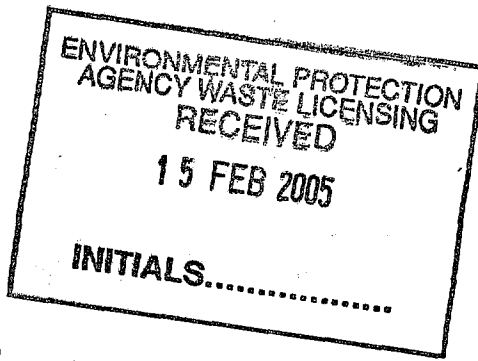

Dear Sirs.

I wish to object to the proposed granting of this licence for the following reasons

- 1/ It could create odour problems
- 2/ It could cause the pollution of air, surface water, water courses and ground water in the area.
- 3/ I would be afraid of the development in case it could cause problems to my cattle, especially to my Saulety Herd that has taken me years to establish.
- 4/ I would be afraid of all the vermin that the site would attract.
- 5/ I have heard of 3% meat in each load of waste, this could be up to 80 or 90 TONNES per day. How will this be controlled.
- 6/ We live in a beautiful area, and I would like to keep it like that.

Your Faithfully
Philip J. Horan

I wish to object to the granting of a waste licence to the aforementioned recycling company for the following reasons :

Siting an industrial facility in a rural area.
The increased volume of articulated vehicles on our local roads and the consequences for the safety of our children who use these at present as a valuable amenity for walking and cycling.

Vermin - rat, foxes, crows, seagulls, magpies, flies, badgers and other scavenger-type animals will be attracted to and multiply in such a facility, increasing the health risks to all humans, domestic, wild and farm animals in the area.
Sourcing of raw material - given that the company has told us that they will source hotel and restaurant waste from the Dublin area, knowing as I do that many of these food outlets purchase meat from suppliers who in turn source this outside the stringent controls of the E.U. (where Foot and Mouth, T.B., Asian Fowl flu etc. are endemic).

Air quality - airborne aspergilli will irritate our lung tissue, especially in winter when our immune system is already trying to cope with the usual colds and flu.
Composting is the way of the future but I will not accept waste, produced outside the catchment area of Mullingar, to be processed at a site opposite my front door!

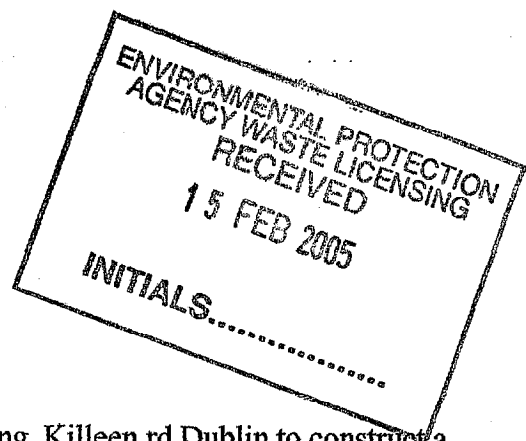

To site a large compost facility on top of a known aquifer is Genocide

Yours faithfully,

Jon Walsh

Re: waste License application to Thorntons Recycling Ltd. for a Composting facility at Pass of Kilbride, Milltownpass, Co. Westmeath.

Dear secretary,

I wish to object to the proposed granting of this licence for the following reasons;

- The proposed facility will be in contravention of the **Midlands Waste Management Plan** and the **Westmeath County Development Plan**.
- The proposed facility could have a damaging effect on the **health** of the people in the local area and surrounding hinterlands, especially in the village of Milltownpass where recently there has been a new **Atheistic Unit** opened at the primary school by Minister Hannafin.
- Also the bio-aerosols released by this plant could cause serious damage to animals in the region, as this is an Equine and Bovine breeding area.
- This plant is proposed to be constructed on an underlying aquifer which in turn feeds all the local wells in the area and also into the **Kinnegad river** and its spawning grounds which is a tributary of the **Boyne river**.
- This proposed plant will also lead to an **increase in pollution**, such as vermin, flies, odours, noise and dust.
- The proposed Composting Plant could have a serious and damaging effect on the bordering **Milltownpass National Heritage Area**, by their proposal to upgrade the road which would in turn lead to lowering of the natural water table of the bogland.
- The majority of **raw material** for the proposed facility will be transported by lorry from the greater Dublin and Galway areas. This includes mainly waste from the hotel and catering industries. This procedure would be highly dangerous as it would include meat particles such as chicken and beef imported from South America, which is notorious for its outbreaks of **Foot and Mouth**.

Therefore I feel that this plant should be located in an industrial region or close to an already existing landfill and not in a rural and agricultural setting such as Pass of Kilbride in Milltownpass. I hope you take my fears and concerns into account and refuse a Waste Licence to Thorntons for this plant on the reasons I have mentioned above.

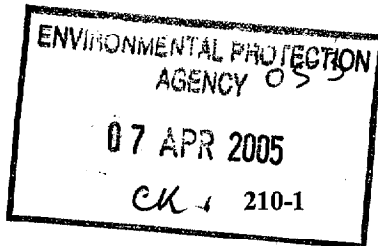

Yours sincerely,

Dean Nolan

Waste Licence Application re: Composting Facility at Pass of Kilbride, Milltownpass, Co Westmeath.

Dear Mr. Sheeraw

I am to refer to your letter received on 15/02/2005, in relation to an application for a waste licence reference number 210-1, by Thorntons Recycling Centre Ltd, in respect of a facility at Composting Facility, Pass of Kilbride, Milltownpass, Co Westmeath.

I am to advise that your letter will be treated as a submission and will be taken into account when determining the application, in accordance with the Waste Management Acts, 1996 to 2003, and Article 15 of the relevant Waste Management (Licensing) Regulations, which provides as follows:

Extract from the Waste Management (Licensing) Regulations

Submissions to the Agency regarding applications.

15. For the purpose of section 40(2)(b) of the Act, a person may make a written submission to the Agency in relation to -

- (i) an application, and
- (ii) such plans, documents and other information and particulars, including an environmental impact statement, as are submitted by the applicant in accordance with articles 12, 13, 14 and 16,

and the Agency shall not give notice of a proposed decision under section 42(2) of the Act before the expiry of a period of one month following the date of a relevant -

- (a) acknowledgement in accordance with article 14(2)(a), or
- (b) notice in accordance with article 16(2)(a), or
- (c) acknowledgement in accordance with article 16(4), whichever such date is the later.

The application and associated correspondence, including the acknowledgements and notifications referred to in Article 15 above, are available on the public file relating to the application as they arise and that file may be inspected by any person during office hours at the Agency's headquarters. A copy of the file is also available for inspection at the Agency's headquarters office in Wexford and at the offices of Westmeath County Council. Copy extracts from the file will be supplied by the Agency to any person, on request, subject to payment of the reasonable cost of making the copy.

You are advised to refer to the public file for information on the progress of the application. The Agency will write to you to inform you of its proposed decision on the application in due course.

Please direct any further correspondence in relation to this matter to Administration, Office of Licensing & Guidance, Environmental Protection Agency, Headquarters, P.O. Box 3000, Johnstown Castle Estate, County Wexford.

Our Ref: NMcG/Thornton/WasteLicence

**Re Application for waste licence by Thornton Recycling Centre Ltd.
 for a proposed composting facility at pass of Kilbride,
 Milltownpass, Co. Westmeath (210-1)**

Dear Ms. Bosley

We are in receipt of additional information regarding the above dated 14th February 2005.

We note that the applicant now does not intend to discharge treated leachate to the Kinnegad River tributary as outlined previously. However we are still very much opposed to this operation for the following reasons:

- The Board is of the opinion that reed-bed technology for treating potentially polluting waters from an operation such as this is unproven and will pose a risk to receiving waters. Furthermore the proposed management system of discharging only when there is adequate dilution capacity in the receiving waters is unworkable in this situation.
- Some of the proposed management practices for surface water management seem to be impractical in an operation that can leave nothing to chance. For example on page 18 of the main Response document it is stated that *Analysis will determine whether the surface can then be discharged to the stream, pumped to the stormwater lagoon for reedbed treatment or taken off site for disposal.* It is quite clear that this 'Dirty' surface water has a strong possibility of entering and polluting the Kinnegad River as it would be impossible to carry out an adequate analysis for such a determination.

**The Eastern Regional
 Fisheries Board**

15a Main Street
 Blackrock
 Co. Dublin

Tel: (01) 278 7022

Fax: (01) 278 7025

E: info@erfb.ie

www.fishingireland.ie

- It is stated in page 10 of the Revised Non Technical Summary that *surface water from the access roads may contain some compost residues and will therefore be treated before it is discharged to the stream*. It is clear that the applicant is allowing for the fact that there will be contamination of waters. What happens to the waters that may be contaminated on the various transport routes and are outside the area where the surface waters are to be treated?

Once again we would like to emphasise that the Kinnegad River branch adjacent to this site is a salmonid nursery stream and the main Atlantic Salmon (*Salmo salar*) spawning grounds on the Kinnegad River is situated at Rattin around 2 Km downstream of this site. Upto 30 salmon spawning redds (areas where eggs are laid) occur here each season and these eggs are very vulnerable to water contamination. We feel that the nature and proposed management of this operation will pose a serious risk to the aquatic habitat as there we believe that there is a high risk of contamination from this site as too much is being left to chance.

The very fact that the applicant has had to reassess his plans just highlights the dubious nature of this proposed operation.

We look forward to a copy of your decision in due course.

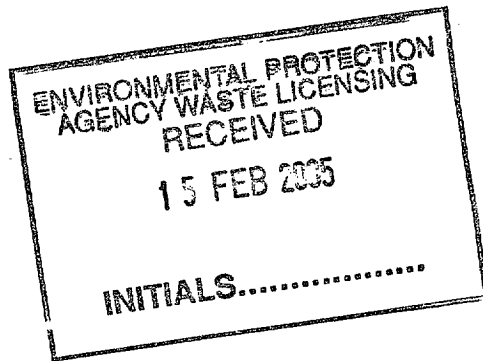

Yours faithfully

Noel McGloin
Senior Fisheries Environmental Officer
Eastern Regional Fisheries Board

- (1) All our wells will be poisoned
- (2) Our air polluted with fine dust containing spores
- (3) The smell will be appalling.
- (4) Rats, mice, flies will increase & multiply.
- (5) This will be an industrial plant in the heart of the country.
- (6) Extra large articulated lorries on a minor road
- (7) Danger to walkers, cyclists etc.
- (8) Let inhabitants in Dublin take responsibility for their own waste.

Yours faithfully

Tom Lyles.

Dear Secretary,

I object to the proposed granting of this waste licence application to Thornton Recycling Ltd, for a composting facility at Pass of Kilbride Miltownpass, Co. Westmeath

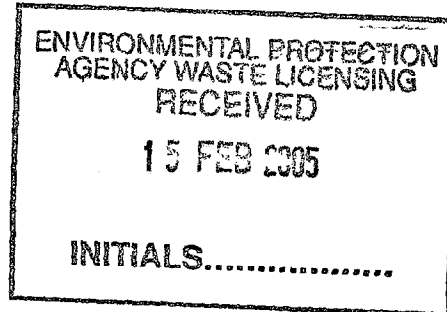

I am a concerned parent that the plant will lead to an increase of pollution. This is a rural community and this proposed development could affect the health of the people & animals in the area.

Yours sincerely
Gavin Hall

The Secretary,
The Environmental Protection Agency,
Box 3000,
Johnstown Castle Estate,
Co. Wexford.

Dear Sir / Madam,

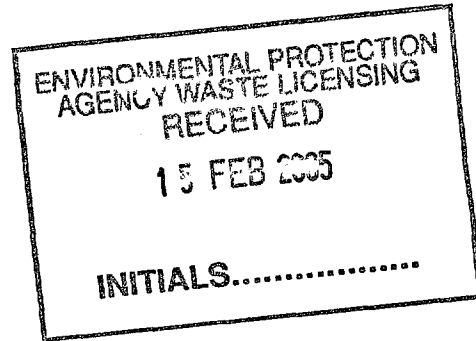

I object to the granting of a
waste licence to Thornton's Waste, Dublin at Pass of Ullvide
Incectoumpass Co. Westmeath because

- (1) All our wells will be poisoned
 - (2) Our air polluted with fine dust containing spores
 - (3) The smell will be appalling.
 - (4) Rats, mice, flies will increase & multiply.
 - (5) This will be an industrial plant in the heart of the country.
- (6) Extra large articulated lorries on a main road
- (1) Danger to walkers, cyclists etc.
 - (2) Let inhabitants in Dublin take responsibility for their own waste.

Yours faithfully
Rebecca Reynolds

RE: Application by Johnston's Recycling Ltd, Killan Rd.
Dublin for a waste permit to operate a composting
facility at Pass of Killbide, Mulltompass, Co. Westmeath.

For inspection purposes only.
Consent of copyright owner required for any other use.

Dear Sir / Madam,

I object because the proposed site is:-

- A On top of aquifer.
 - B Increased traffic on an already bad road.
 - C Decrease in air quality especially for young & elderly
 - D Noise which will migrate to sea rats flies etc
 - E Decrease in property values
 - F Raw material mining in unsealed from Dublin area.
 - G. Damage to fish spawning rivers
 - H. Contrary to Midlands Waste Management Plan
- Yours Faithfully
