Re: INDAVER IRELAND WASTE APPLICATION Reg No. 167-1

Location of Development: Carranstown, Duleek, Co. Meath.

With reference to the above, I wish to object to the application made by Indaver for a waste license for the following reasons:

- 1) The freedom of choice was not made available at any time concerning this matter.
- 2) As secretary of the Duleek Boys and Girls Soccer Club situated yards from the proposed site I am very concerned about the environmental and health problems that will arise from such a development not being the *opted word.
- 3) Why choose Duleek when we already have 'Cement' on the very strand you want to put an incinerator. How much is being done to protect our community?

I would appreciate a written acknowledgement of this letter, and confirmation that my objection is a valid one.

Signed Marion Dunne 109 Millrace, Duleek. Co. Meath

N.B Please find enclosed pictures of our young soccer club at our grounds in Duleek - Tollstone. In the background you can already see the Irish Cement chimneys, we as a community are already suffering with a huge increase in asthma sufferers are these to blame - we think so. These young children can play football now can you assure us that their children can!
