Re: Indaver Ireland
Application for a Waste Licence for the Ringaskiddy Waste Management Facility

Comments on behalf of CHASE and East Cork for a Safe Environment.

Dear Sirs,

I have to advise you that I will be submitting, within the next 2 weeks, initial comments on the above application.

It is my professional opinion that there are serious and substantive reasons for the rejection of the application, as invalid, inappropriate and incorrect. At the very least, a new application should be required, taking note of the comments.

Yours faithfully,

Peter H North
