Re: Waste Disposal, Kerdiffstown, Naas
Ref: 47/2 - Nephin Trading Ltd /A1 Waste

Dear Sirs

We understand that Nephin Trading Ltd/A1 Waste have applied for waste licence review (Application Register No 47-2) which would allow it increase its site level to **108 MOD**.

Currently Nephin Ltd are non-compliant with its existing licence which permits construction 100 MOD **as in fact** it has raised the levels substantially higher than even 108MOD.

Also we have since March last year endeavoured to get Nephin to vegetate the embankment visible from our course, and to date there is no evidence of this being done. **As** you must appreciate our **course is** a major amenity for Naas/Kildare and one in which we have invested heavily. **As** it is sensitive to **any** environmental change such as dust emissions from adjacent properties we are concerned that in view of Nephin's non-compliance with **licence** reference 47/1, increases in the height will incur a substantial **risk** to our course.

We would also note that the huge embankment which has been constructed to date and which is non-compliant is **visually** intrusive on our course.

Regretfully, based on the above we object to the licence review applied for.

Regards

Jim Fennell
Hon. Secretary
Naas Golf Club
