Dear Ms Donlon,

would you kindly inform us if the EPA has received the requested further information from Shell and if so what date.

Where can we view the EPA letter of request for further information?

Yours sincerely,
 Monica Muller

The Agency has requested additional information under Article 11(2)(b)(ii) of the Licensing Regulations and is currently awaiting a response. The Agency is obliged to issue a proposedd etermination within two months of receiving a complete application - this date is not known at present.

The Agency is responsible for considering licence applications for activities listed in the First Schedule of the EPA Acts 1992 and 2003. The extent of the installation in this instance is the on-shore gas plant. An EIS for the gas plant accompanied the licence application. The off-shore EIS does not fall within the scope of the licensing process and therefore is outside the remit of the Agency.

I hope this information provides you with some clarity.

Regards

Ann Marie Donlon
