To whom it may concern

I am living near Killaskillen in County Meath. I wish to object to the application by Lagan Cement TA/50145 to burn Meat and Bone Meal as a fuel source in the Cement Plant.

The main reason for my objection is the potential risk to the health of my children. Also the potential of dioxins entering the food chain as we have livestock grazing near the plant. We are very concerned that our beef production will be effected as we will not be able to market our beef as we are in close proximity to the cement factory.

Yours truly
