**Subject:** EPA P0738-01 IPPC Shell E & P Ireland - Bord Gais

Dear Sir/Madam,

I wish to make a submission to P0738-01 IPPC Licence application by Shell E & P Ireland.

The application documents submitted by the developer appear not to include mitigation measures for the protection of the environment.

However, documents related to the Bord Gais transmission gas pipeline starting from the Bellanaboy gas refinery are inexplicably included in the Shell E & P Ireland application form. 'List of Mitigation Measures, Bord Gais transmission gas pipeline, Mayo to Galway' received by the EPA, 8 December 2004, attachment B1iii, Ministerial Consent to construct the Bord gas pipeline, Wayleave Orders and documents relating to Duchas and Department of the Environment, all of which are Bord Gais documents.

I fail to understand why Shell E & P Ireland submitted documents relating and belonging to Bord Gais, relating to a gas transmission pipeline which has no connection to the current application for an IPPC licence.

Please clarify and explain the matter to me as otherwise I will not be in a position to make a proper submission. I do not wish, guided by the available information, inadvertently and wrongly, make a submission in any way related to Bord Gais.

Yours sincerely,  
Monica Muller  
Peter Sweetman  
Rossport  
Ballina  
Co. Mayo
