Ireland

Subject :IPPC Reg No. P0127-02 Punch Industries Wallingstown Little Island , Co. Cork appeal to conditions of Section 99

10th October 2006

Dear Ms Leacy ,

Cork County Council wish to address the issues highlighted in the appeal by the above named applicant

Objection 1 –Relates to EPA conditions solely

Objection 2–Relates to EPA conditions solely

Objection 3 – Punch Industries did not disclose the detergent monitoring data as part of the review process. Cork County Council would be agreeable to an interim value of 10mg/l of Detergents as no documentation was supplied to support a value of 15mg/l of Detergents. The interim period shall not extend beyond eighteen months from the date of issue of the licence and Cork County Council reserve the right to alter the parametric detergent value at that date.

Objection 4–Relates to EPA conditions solely

Objection 5 –Relates to EPA conditions as Cork County Council requested monitoring on a twice per year basis. A change from weekly monitoring to monthly monitoring is an issue for the agency in this case.

Objection 6 – Cork County Council would not be agreeable to a change in this condition. Notwithstanding the previous reports the information on B.O.D. is required in order that Cork County Council may assess all biological inputs to the Carrigrennan Treatment Plant and assess all loadings which currently discharge to the sewer and treatment plant.
