Co. Wexford.

Ref: Waste License Application Ref: 230-1
Applicant: Valeco Ltd.

Dear Sir/Madam,

I refer to the above application.

We have deep concerns regarding this proposed development in our area.

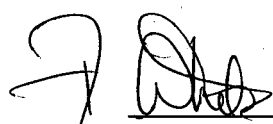

As parents of a young child, we are fearful of the harmful emissions from this proposed development. We live within a two mile radius. Our local national school which is situated 500 meters from the site and I fear it will have drastic consequences on it, if allowed to go ahead.

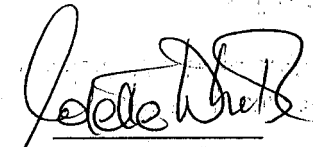

The road infrastructure to support such as development is totally unsuitable. The area is a network of byroads where access on many of the roads is unsuitable for two cars passing, let alone the volume of traffic proposed.

Araglen is unspoilt area with a rough beauty that only when seen can be appreciated. We as residents would like to keep it this way and strongly oppose this proposed development.

We ask you to totally reject this application for a waste license.

Sincerely,

Tony White
