

Re: Waste Licence 111-2

We wish to request access to the Annual Environmental Report of South East Recycling (Ormond Waste Ltd), Pembrookstown, Wexford, as we would like to ascertain the tonnage of waste imported on to the site.

We request this urgently as we would like to assess the impact of the proposed revised waste application.

Could you please also confirm when a decision is due to be made on the licence application and also how many complaints have been lodged against the facility since 06th September 2004.

Regards
