22<sup>nd</sup> February, 2006

Manager,  
Environmental Protection Agency,  
Johnstown Castle Estate,  
Co. Wexford.

Dear Sir,

Re: Proposed Determination re IPPC Licence Reg. No. P0738-01

A 23-page entitled '*Updated Atmospheric Modelling Study*', by environmental consultants RSK, was lodged yesterday, 21<sup>st</sup> February, by the applicant - that is, on the closing date for Objections to the Proposed Determination. Consequently, third parties were denied access to this information prior to submitting their respective objections.

We consider this to be further evidence of the devious and obstructive behaviour of the applicant. Also, we view it as further evidence of a statutory protective agency accommodating such questionable behaviour at the expense of public confidence.

I object in the strongest possible manner to the acceptance of this report by the EPA.

Yours faithfully,

Imelda Moran  
& Edward moran
