RE: Nurendale Ltd t/a Panda Waste Services Ltd - W0140-03

Dear Sir,

We wish to object to the planning application being sought by the above named which appeared in the Star Newspaper on April 25<sup>th</sup> 2007. One objection is that trucks and lorries are coming in and out of the yard at the early hours of the morning. They use a shovel machine creating a lot of noise at the early hours of the morning.

Another objection is the dust coming from their yard over to our yard, farm and house. Our yard is 50 yards (approx) from their yard and the dust coming over is causing a lot of inconvenience for our family and animals. We are milking cows twice a day, and this dust is causing the cows to cough. The dust also comes out onto the grass where the cows are eating. There is also paper and plastic on the grass. There is also an odour coming from their yard.

The hours they are operating are not the hours they were licensed for. We feel that if they get longer opening hours these problems will be worse.

I look forward to hearing from you.

Yours sincerely

GERARD LYNCH
