Re: Silvercrest Foods Ballybay, Co. Monaghan

Gráinne,

As per request of Mr. Pat Byrne I am enclosing a copy of letter issued to Silvercrest Foods, Ballybay, Co. Monaghan. This letter gives the quantitative and qualitative characteristics of effluent that Monaghan Co Co will accept from the company.

Gearoid McCarthy
Water Services
Monaghan Co Co

Encl; Letter to John Durkin, Silvercrest Foods, Ballybay

FAO. Mr John Durkin
Silvercrest Foods
Ballybay

21/11/2007

Ref. DF/GMcC

John,

Following on from our meeting, I wish to confirm that the company have revised their discharge requirements as follows,

Flow rate: 25m3 per hour

Daily Volume; 100m3 per day

The Qualitative parameters as set out in the licence are as follows;

BOD; 600mg/L COD; 1200mg/L SS; 300mg/L

pH; 6.0 - 10.0 Temp; 40°C FOG; 100mg/L

Total P; 10mg/L

The current cost of treating the effluent was €1.70/m3 compares with €1.22/m3 that was set in 1993, which you are currently paying. This cost is based on an effluent quality of 300mg/L BOD. If the strength of the effluent were to increase to 600mg/L the unit cost would increase to €3.40/m3. The 300mg/L is the lower limit, even if the quality was to go below this we would have a hydraulic load to cater for.

Is mise le meas,

P.P. David Fallon
Director Of Service
Water Services

cc. Patrick Byrne EPA
