Re: E.P.A. Licence to operate a Waste Incinerator at Poolbeg, Dublin

Dear Sirs

In reply to our request for copies of all documents on which your decision to issue a licence in respect of the above. You referred us to your website, telling us that all documents could be downloaded.

We downloaded said documents and found among the documents, a letter you received from Dublin City Council, informing you that the original proposed operators had cancelled out on this project and that the City Council would wish to proceed with the application for a waste licence.

The question arises urgently:

Were the documents you received with the original application not based upon operation by the original proposers?

If you got new documents, they are not on the website. Some of the initial documents and applications are dated 2006 and we can tell that in some respects, details were out of date when you issued your licence.

Are there other documents from the proposed new operation received by you and not on the website?
