RE: Our client: CRAI Limited  
EPA Oral Hearing  
Proposed decision on Poolbeg Waste Incinerator  
Reg No W0232-01

Dear Madam,

Thank you for your fax yesterday. We note your view that the agency and the Chairperson have no function in requiring the attendance of Dr. Broderick. Dr. Broderick identified deficiencies in the EIS in relation to air quality. During the course of the oral hearing, further information was supplied by Dublin City Council in relation to air quality. It was confirmed in evidence on behalf of Dublin City Council that the information it has supplied has not been independently checked.

Since the information in relation to air quality provided by Dublin City Council in the EIS was found to have deficiencies, it is feasible that there are also deficiencies in the further information, which has not been independently checked and which was supplied during your oral hearing. Please confirm how, in the absence of further evidence from Dr. Broderick, the EPA will assess whether the deficiencies in the EIS have been remedied or whether the further information provided on behalf of Dublin City Council does not itself contain deficiencies.

Yours faithfully,

*Michael Campion*
