re: Application by Oxigen Environmental Ltd, for a licence to operate an Integrated Waste Management Facility at hismagroddy and Cavanure townlands, Cooteshill rd, Cavan, Co-Cavan.  
 Ref: W0248/01

Dear Sir/Madam,  
 We refer to the above application for a waste licence and wish to object to the granting of it on the following grounds:

1: As a resident in the immediate area of the proposal, I am very concerned for my families health if

such a facility is granted. At present we are surrounded by the foul odour emanating from the landfill and do not know what implications they have on our health. No one can say what gases are produced or will be produced if this new MBT plant licence is granted.

This proposal of the current landfill is inappropriately positioned, being in close proximity to Cavan town, & villages.

3. Local people have been adversely affected by the present facility, the value of their property has decreased. Granting of this licence will no doubt further devalue property.

4 It has been accepted in the EPA's own reports, that pollution + bad management of the present facility are major practice & indeed Caran County Council have already been prosecuted successfully for breaches of the existing licence. Gixigen have repeatedly broken the existing licence on a number of different issues. We would therefore contend that the present facility should be closed and no new licence should be granted for further developments.

5 We cannot invite our friends to our house with the current odour. What is it going to be like if this additional facility is granted? It is demoralising and embarrassing. This is my home our home, where we plan to spend the rest of our

lives, we should not have to suffer  
like this.

Thank you for reading our submission  
and please understand the importance  
of refusing this application for this  
MBT plant licence.

Yours faithfully,  
Geraldine Smith.
