

1/1/09.

Dear Sir/Madam.

I wish to make the following submission in regard to the proposed Integrated Waste Management Facility at Lismagraty & Carrane Townlands Cook's Hill Road, Carrane.

As a Resident in the close proximity of the same forementioned above and as a parent I feel it's my duty & my right to make his submission. My points of concern are as follows.

① Health

Can anyone honestly give an undertaking that the foul odours & gases are harmless to my children & me

② Community

The amount of increased traffic the dump has already brought to the area and is likely to bring in the future is unacceptable. From 6 A.M. in the morning Artic Lorries are queuing up on a dangerous corner of a busy road, some times 10 lorries in one line.

It has already been demonstrated by the Courts that
by many reports undertaken by the E.P.A that the present
facility is not being run properly and even if it was
weather Smell & pollution could be eliminated.

I thank you for your time in reading this
Submission and I hope you take note of my & many
other concerns before arriving at a decision on this
Application for a licence.

your faithfully

Thomas M'Govern Jnr.
Hannies
Cavan.
