RE/ Application by Oxygen Environmental LTD, for the license to operate an Integrated Waste Management Facility at Lismagratty and Corranure Townlands, Cootehill Road, Cavan, Co. Cavan.  
Reference: W0248/01

Dear Sir/Madam,

I refer to the above application for the waste license and would wish to object to the granting of the same on the following grounds:

1. It has been accepted in the Agency's own reports, that pollution and bad management of the facility are normal practice and indeed Cavan County Council have already been prosecuted successfully for breaches of the existing license. I would therefore contend that the facility should be closed and new license should be granted for the expansion of the activities on this site.

2. The proposal, whilst in an area zoned for such a purpose by Cavan County Council is inappropriately positioned, being in close proximity to a large town, two villages and many rural houses, on which the present facility has a huge adverse effect.

3. I question the manner of disposal of lechiate from the present facility and the manner by which same is conveyed to the sewage treatment works. I also question the ability of the local sewerage treatment works to deal with lechiate and whether the sewage treatment works were designed to treat this lechiate.

For the above reasons I call on the agency to refuse the application for the license in this matter and to press for the closure of the present facility.

Yours Faithfully,

*Pat Donnelly*
