Re: application by
 Oigen Environmental Ltd to
 have waste management facility at
 Greenacres, Castell Rd, Cavan
 Yuz Rd W028101

Dear Sir/Madam,

I wish to object to the
 granting of the above application on the grounds
 that the area zoned is totally inappropriate
 being in close proximity to Cavan town & two
 villages and the rural houses beside the facility.
 In the agencies own report it is accepted that
 pollution & bad management are normal practice at
 present & prosecutions have been executed for
 breaches of the existing licence.
 The disposal of leachate from the present

facility and the manner in which it is conveyed to sewerage works is a cause for concern also. The treatment works are not designed to deal with leachate.

It is a health hazard to all living in the locality and it is a disgrace that people and especially children & the elderly are exposed to the effects of the pollution & gasses and as I travel from Castlehill to Gowan daily and the smell from the dump clings in my car & on my clothes I cannot imagine how anyone can live in an environment where you have this smell wafting into your home.

Thank you for taking the time to read my letter

Regards

Ann Keenaghan
