Subject: Advanced Environmental Solutions - Cout case

Dear Seamus,

Following our phone conversation, I would be grateful if you could give me some information on the court's decision re Nenagh Waste Transfer station (Advanced Environmental Solutions (Ireland) Ltd). and their waste acceptance in previous years.

I am working on their licence and would like to incorporate this info into the Inspectors Report that is prepared together with the Proposed Decision (Licence).

Please don't hesitate to contact me should you have any query.

Best Regards,

Ewa Babiarczyk
Inspector
