

the value of our home

This May we celebrate our sons
Communion & again it is a concern to arrange
an outdoor party. This is something we
shouldn't have to give a thought to, it is
absolutely disgraceful.

We can't even open windows to breathe
in fresh air, hang clothes on a washing
line, I hope you realise how frustrating
this is & feel time we could put an end
to it. Please support our family & many
more by refusing this Licence.

Thanking you

Yours faithfully

Pauline Kelly

Dear Sir/Madam,

I wish to lodge a complaint against Oxigen Environmental Ltd. for a proposed licence to operate an Integrated Waste Management Facility in Comanure, Cootehill Rd. Cavan.

I live within a mile radius of this facility & live in constant fear of what health dangers my young children are enduring, ~~the~~ the smell of gases & foul odours are outrageous, the air feels constantly polluted.

It is both humiliating & embarrassing to have our concerned parents constantly tell us to sell up & move to the healthy countryside, after we thought we bought the site of our dreams. Not even to mention what this facility has done to
