Dear Sir/Madam,

I wish to lodge a complaint against Oxigen Environmental Ltd. for a proposed licence to operate an Integrated Waste Management Facility in Comanure, Cootehill Rd. Cavan.

I live within a mile radius of this facility & live in constant fear of what health dangers my young children are enduring,

~~the~~ the smell of gases & foul odours are outrageous, the air feels constantly polluted.

It is both humiliating & embarrassing to have our concerned parents constantly tell us to sell up & move to the healthy countryside, after we thought we bought the site of our dreams. Not even to mention what this facility has done to

the value of our home

This May we celebrate our sons  
Communion & again it is a concern to arrange  
an outdoor party. This is something we  
shouldn't have to give a thought to, it is  
absolutely disgraceful.

We can't even open windows to breathe  
in fresh air, hang clothes on a washing  
line, I hope you realise how frustrating  
this is & feel time we could put an end  
to it.

Please support our family & many  
more by refusing this Licence.

Thanking you

Yours faithfully

Pauline Kelly

on behalf of myself, my husband  
& five children.
