

Dear Sir or Madam,

Please excuse my freedom, in writing this letter to you, but necessity, urges me to do so.

I am 87 years old, living alone, I like to open my windows, and doors daily, but the odour is stifling, or suffocating, in breathing such air, loathsome gas, all from Cora "Coranure Dump", "Close it" I would be pleased if you could, look into the matter, give me a thought.

A breath of fresh air, would be wonderful.

Thanking you in anticipation, awaiting the favour of your reply,

Yours sincerely,

Ethna O'Reilly.
