Application by Oxigen Environmental Ltd, for a Licence to operate an Integrated Waste Management Facility at Lismagratty and Corranure Townlands, Cootehill Rd, Cavan Co Cavan. Your Ref: W0248/01

Dear Sir/Madam,

I live at home with my parents and in the past 2 years have found the state of the landfill visually and obnoxious gases emitting from Corranure landfill unacceptable. I can not believe that Oxigen have been allowed to build such an eye sore, the height of the dump is unacceptable.

Most evenings I would go for walks after work and have found the strong obnoxious odours extremely unpleasant. It has effected my enjoyment of walking the area and sometimes stop me leaving the house altogether.

I have grave fears for the health of my family and myself living so close to the landfill.

It can not be right in this day and age, with EU guidelines on the environment that we should have to put up with this. Are the EPA and Cavan Council not supposed to protect residence from these illegal practices?

For these reasons I strongly object to Oxigen getting planning permission to continue using or extend the landfill. I strongly ask the EPA to refuse planning permission and close the landfill as soon as possible.

Yours faithfully,

Caoimhe O'Brien
