To Whom It May Concern:

**Re Application by oxygen Environmental Ltd for a license to operate an Integrated Waste Management Facility at Lismagratty and Corranure Town lands, Cootehill Road Cavan Co Cavan .**

Living close by this local dumb is having a terrible effect on my family, when we open the windows the smell in our house is unbearable so therefore we cannot let fresh air into our home, when we hang our clothes on the line they come back in dry but smelling foul which means they have to be re washed and dried inside or use of tumble dryer.

My three children also go to school in the area and this dumb has effect on them also, they smell this foul air while playing outside at break time which I am sure is by no means healthy.

It is along one of our main road and its appearance along with its smell it just not good enough.

We have been let down by our County council and now oxygen are going down the same channels.

I call on the agency to refuse the application for a license in this matter and to press for the closure of the present facility.

Yours sincerely
