**Re - Application by Oxigen Environmental Ltd, for a Licence to operate an Integrated Waste Management Facility at Lismagratty and Corranure Townlands, Cootehill Road, Cavan, Co. Cavan**

Dear Sir/Madam

I refer to the above application and would call for the EPA to refuse on the grounds outlined below

- The smell coming from the present facility is very unpleasant. When I open the windows of my house I get a smell, also on my clothes, while I am out walking and whilst driving past the dump
- My children (see separate letter) are affected to the same degree and our local school is just up the road
- There is a String of broken promise from Cavan County Council for over 10 years and by Oxigen for the past 12 months and this is just the straw that has broke the camel's back
- This dump is being used by all neighbouring counties as I see waste lorries as far away as Dublin entering the facility

We did not move to Cavan to be beside a 'Super Dump'.

This proposal if granted will devalue of way of life, our home & have to suffer these harmful effects on our health & most importantly our children's health.

I call on the EPA to refuse this application for a licence in this matter and to strongly for the closure of the present facility for the reasons outlined above

Yours Faithfully

Noel Gilmartin

**Re - Application by Oxigen Environmental Ltd, for a Licence to operate an Integrated Waste Management Facility at Lismagratty and Corranure Townlands, Cootehill Road, Cavan, Co. Cavan**

Dear Sir/Madam

I refer to the above application and would call for the EPA to refuse on the grounds outlined below

- The smell coming from the present facility is very unpleasant. When Mammy & Daddy open's the windows of our house I get a smell, also on my clothes, while I am out in my buggy and whilst out playing outside our home
- My local school is just up the road and if this facility goes ahead I will get this smell

I do not want to live beside a 'Super Dump'.

This proposal if granted will cause damage to my health & I do not want to be sick.

I call on the EPA to refuse this application for a licence in this matter and to strongly for the closure of the present facility for the reasons outlined above

PS My Daddy & Mammy helped me with this but I understand what is going on

Yours Faithfully
