**RE: Our clients – Bottlehill Environmental Alliance
Cork County Council application for technical amendment to Waste Licence
WL W0161-01 Bottlehill Landfill**

Dear Sir,

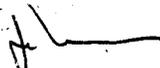

Please note that we act for Bottlehill Environmental Alliance. Our clients were active participants in the licensing and planning processes concerning the Bottlehill landfill.

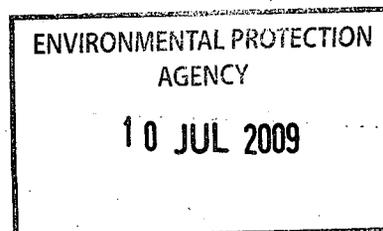

On Tuesday of this week our clients received a copy of Cork County Council's application to the EPA for a "technical amendment" to their waste licence.

Our clients have requested us to enquire of you whether the EPA is minded to treat the application under the "technical amendment" procedure as distinct from regarding the matter as more appropriate to a licence review.

Please note if the EPA is so minded, our clients will wish to make a submission on the matter before a decision is made by the EPA on the Council's request. Therefore we would ask you to confirm that such an opportunity will be afforded to our clients prior to any such decision being made.

Yours faithfully,

Joe Noonan,
