Ref. No : WLW0161-01 Bottlehill Landfill, Co. Cork.

Dear Mr. Meaney,

I write to object to a change in the above licence for the following reasons :

It is a total reversal of the purpose of the landfill.

The site is not suited to this purpose given its location.

Unbaled waste will be an eyesore.

Unbaled waste will attract greater amounts of vermin and birds.

Unbaled waste will have catastrophic effect on water quality.

Unbaled waste will create increased traffic as other counties transport their waste to this landfill.

A new enquiry should be announced so as to advise properly people living locally as to its impact.

Yours sincerely,
