Bottlehill landfill
Application for Technical
Amendment to Waste Licence

Dear Sir

We were very
disappointed to hear
that unbaled waste
will be going to
Bottlehill landfill.
We now realise that
we were misguided
when assured that
licence was granted
for baled waste only

For inspection purposes only.
Consent of copyright owner required for any other use.

This licence it seems can
now be easily overturned
A change of such
magnitude surely
requires a new
planning application
and E.I.S. to be
submitted

We are objecting to
this barnaboul & feel
a public hearing is
required before changing
original licence

We think that
unbaled waste is
environmentally dangerous

↳ damaging to wildlife
↳ livestock en route &
in the land fill environs
jeopardising the ability
of local farmers to
earn a living &
devaluing their holdings

Signed

John J. Sheehan
