**Re: Application for Waste Water Discharge Licence in respect of Ballycotton, County  
Cork. D0516-01**

*For inspection purposes only.  
Consent of copyright owner required for any other use.*

Dear Ms Bolger,

I refer to the above named Application submitted to the Environmental Health Department.

This department wishes to make the following comments:

### **Construction Phase**

The main mitigation measures for noise control must be monitored to ensure that the daytime construction noise limit is managed

Any major earthworks will pose a risk of pests if mitigation measures are not put in place. A pest control plan should be in place at all times.

## North Lee Environmental Health

### **Operation of the Plant**

Sampling, monitoring and analysis of the wastewater and sludge must be carried out  
This must include monitoring in Ballycotton Bay at the discharge points to ensure  
compliance with waste water treatment and bathing water legislation.

Noise and odour control measures must be in place and monitored as per the operational  
management plan for the plant

If there are any issues arising from my comments or I can be of any further help please do not  
hesitate to contact me

Yours Sincerely,

Miriam Cashell

**A/Principal Environmental Health Officer.**
