Dear Josephine,

Under the new IPPC license Longford County Council is agreeable to allow a higher flow rate, up to 400m³/day, (**maximum 30m³/hour**) at a reduced concentration of 200mg/ltr BOD. i.e. to maintain the existing loading of 80 kg/day BOD.

Any queries, you can reach me at the listed contact details.

Yours sincerely,

Brian Ross
Senior Executive Engineer
Water Services
Longford County Council
