**Re: File ref: E3/2/14 – Vol.13**

Dear Mr O'Neill

Thank you for your correspondence relating to the application for a dumping at sea permit for Dublin Port Company.

Due to the increased volume of spoil to be dumped we would like to repeat the analysis that was carried out in 2007. It will be necessary to supply at least 500g of each sample, clearly marked and identified. The co-ordinates for the sample points should also be included.

If you have any further queries please do not hesitate to contact me.

Yours Sincerely

  
Jennie Wong  
Radiation Monitoring
