Dear Mr. Clinton,

I Fiorella Lirio, about two years ago we signed a petition for Brian Dolan of Poolboy Community Development Council in objection to a proposed Sludge Plant. Recently the EPA posted a submission from Brian Dolan objecting to Premier Proteins. We wish to make it known on public record that we do not object to Premier Proteins and that Brian Dolan (Poolboy Community Development Council) does not have our permission to represent our views and wishes in this matter.

As there are many jobs at stake here we suggest that the EPA find out if Brian Dolan has got permission to represent other areas as he claims.
