### Re: IPPC License Application – C & D Foods – Ref: P0908-01.

Dear Josephine,

I refer to your letter, dated 11<sup>th</sup> January 2011, Ref No: P0908-01, advising Longford County Council of application for IPPC license by C & D Foods Ltd.

Under the new IPPC license, Longford County Council confirms that it will allow a higher flow rate, up to **400m3/day**, at a daily maximum concentration of **400mg/ltr BOD**.

**Please note that the existing maximum loading of 80 kg/day BOD has to be adhered to.**

Please note that the 16.66 m3/hour maximum flow rate is for **effluent only** from the C&D wastewater process. LCC understands that there will be additional cooling waters discharged to LCC sewer network.

This continues the existing load limits and is acceptable to LCC with regard to the loading on our WWTP. This will be subject to a review to be conducted with C&D Ltd later this year with regard to compliance with the relevant policy requirements and in particular Department of the Environment Circular L4/02 (WSP) Re: Implementation of Water Services. Pricing Policy – Model Water and Waste Water Agreements and General Guidance.

Any queries, please contact the undersigned.

Yours sincerely,

Brian Ross  
Senior Executive Engineer
