**To:** Noeleen Keavey  
**Subject:** Re: P0516-03 Boliden Tara Mines Limited

Dear Noeleen/Michael

I refer to our telephone conversation of yesterday 7 April 2011 re application from Boliden Tara Mines.

Please clarify the following: -

(1) What documents has Boliden Tara Mines submitted to the EPA in their application for a License. Are they the same as was submitted to the Planning Dept. of Meath County Council in their Planning Application and if that is so then I may have these Reports /Documents in my possession already, or

(2) Has Boliden Tara Mines submitted more detailed Reports over and above what in was their planning application, plus possible other detailed reports and or information, or

(3) Are the documents in the application from Boliden Tara Mines to the EPA, specific to waste criteria etc, i.e., composition of waste, annual tonnage, total tonnage for the life of the mine and or for the duration of Waste License from EPA?

(4) Where can I view the 'Further Information' latest request from the EPA to Boliden Tara Mines.

(5) Where can I view/inspect the Further Information submitted by Boliden Tara Mines to the EPA in response to the Further Information request?

Are all or some of the above available on line on EPA's website and if so please provide directions.

Are all documents in relation to this application from Boliden Tara Mines available for inspection in your Dublin Office as I would find it difficult to travel your offices in Wexford and if so please provide a contact name and phone number and if possible an email address.

Kind regards

Cllr. Phillip Cantwell  
Independent Councillor - Trim Town Council

Dear Noeleen

Thank you for your prompt reply.

We need to get our submission put together immediately and forwarded to the EPA asap after that.

Kind regards

Cllr. Phillip Cantwell

Dear Cllr Cantwell

Further information was received from Boliden Tara Mines on 14th February 2011 and was available to view on the Agency's website from 16th February 2011. This information is currently being assessed by the Inspector.

Submissions can be made on the application up to the time the Agency issues a Proposed Determination. Should you have any concerns/issues with this application, I would advise you submit them as soon as possible, so that they can be fully addressed by the Inspector assessing this application. Submissions can be made online/email/posted to the Agency.

There is also a facility on our website where you can subscribe to this application to receive RSS feeds. Instructions on how to subscribe to RSS Feeds are available to view on each live application. Should you subscribe to this service, you will be notified on any new information available to view on this application.

Trust this is of some assistance to you.

Kind Regards

Noeleen Keavey

Dear Noeleen

Just checking with you, has Boliden Tara Mines replied with the Further Information to the EPA as of yet?

If they did, what was the date of their reply?

Has the Further Information (if furnished) to the EPA satisfactory and no further info looked for!

Its very important if Tara Mines has replied) to get the closing date (if now available) for us to make a submission to the EPA? Thank you and your colleagues for all your assistance. With the failure in 2010 of the Dam in Hungary and the recent devastation in Japan, the last thing the people in Meath and Louth (and Ireland) need is a toxic dump containing 50 million tons of heavy metals in perpetuity surrounded by two vertical extensions like a ticking time bomb!

Kind regards

Cllr. Phillip Cantwell

Subject: P0516-03 Boliden Tara Mines Limited

Dear Phil

I understand from my colleague, Josephine Kennedy, that you were querying the Proposed Determination date of the above application.

The Agency received an application from Boliden Tara Mines Limited on 19 November 2010 to review their existing licence (which is available to view on the Agency's website [www.epa.ie](http://www.epa.ie)). The application is currently under assessment by an Inspector of the Agency and a Section 90 issued to the applicant on 20 January 2011 requesting clarifications/further information on the information received on 19 November 2010 (also available to view on our website). Until such time as this information is submitted no date will be set for a Proposed Determination to issue.

Under legislation, the Agency may issue a number of Section 90 requests until it is satisfied it has all the necessary information required to draft the Proposed Determination. This in turn will extend the date by which a Proposed Determination should issue. The Agency may also request time extensions from the applicant to give further consideration to the information submitted.

Therefore until such time as the Agency has acknowledged the application as in compliance with Section 90 of the Environmental Protection Agency Acts 1992 to 2007, no date can be given as to when the Proposed Determination will issue.

The Agency advises that you regularly check the status of the application on our website <http://www.epa.ie/terminalfour/ippc/index.jsp> using the above reference number.

I trust this is of some assistance to you.

Kind Regards

Noeleen Keavey
