**Re: Application for an Integrated Pollution Prevention and Control Licence for the operation of combustion installations with a rated thermal input equal to or greater than 50MW at Lumcloon Power Station, Co. Offaly**

A Chara,

I refer to the application in relation to the above-proposed activity. Outlined below are the nature conservation recommendations of the Department of the Environment, Heritage and Local Government.

A condition of the licence must be that the applicant adheres to strategies and mitigation as outlined in the submitted EIS in relation to flora and fauna on site and discharges to the Silver River.
