REF Murphy Enviromental Hollywood Ltd application for Hazardous Waste Licence at Hollywood, Nags
Head, Naul, Co Dublin

Application No: W0129-03 my second submission

For inspection purposes only.

Since my First submission it has come to my attention some new information regarding Murphy Enviromental Hollywood Ltd.

In 2008 Planning permission was refused to MEHL on the grounds that the Enterance, nature of business and the increased traffic flow would be injurious to the local residents in the surrounding area. ! How can the same company be then given the permission for a toxic waste facility 2 years later ?

There were actually 4 reasons for the refusal but all of them amount to one simple thing..... it being too hazardous for the area and to the people who live here.

I am stunned to say the least to learn how this has come about. I am left to wonder what kind of people make these decisions Surely they would have to hand the previous refusal and the reasons before ticking the box and simpling granting permission. How can they be content with themselves by passing this and placing this huge burden and health hazard on us.

I am therefore pleading with the EPA to do the job that they have been put in place to do and protect the residents and the enviroment and refuse this application from MEHL

Yours sincerely

Elizabeth Gough
